GOVERNMENT OF INDIA.

LEGISLATIVE ASSEMBLY DEPARTMENT.

The following Report of the Select Committee on the Bill further to amend the Indian Tariff Act, 1934, for certain purposes, was presented to the Legislative Assembly on the 2nd April, 1934.

We, the undersigned, Members of the Select Committee to which the Bill further to amend the Indian Tariff Act, 1934, for certain purposes, was referred, have considered the Bill and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

We have examined with care the materials placed before us upon which the various duties proposed by the Bill have been based, and have satisfied ourselves that those proposals are in the main adjusted with due regard to the various interests affected.

On the alterations effected in the Schedule we append the following explanatory remarks:

The amendment in entry No. 7 corrects a drafting omission.

In entry No. 8, Item No. 137 A, we have increased the additional specific duty from 11¼ annas to 14 annas. The latter figure is the result of a calculation

based on import prices for the months of December, 1933, January and February, 1934, while that in the Bill was based on the figures for the months July to September, 1933. The change made in Item No. 156 A in entry No. 9 is made for the same reason.

The change made in Item No. 156 E removes the sub-division into three classes with varying duties and fixes one general rate of duty for all classes. The sub-division contained in the Bill had the unintended result of imposing an unfairly heavy duty upon certain particular kinds of the article specified in the item.

The change made in the duty imposed under Item No. 156 F is consequential on the change made in the duty imposed under Item No. 156 E on pure silk piece-goods. The entry in column 2 has been recast to differentiate between (a) mixtures containing a high proportion of silk and artificial silk, (b) mixtures containing a lesser proportion of silk and artificial silk and (c) mixtures containing no artificial silk, and a low proportion of silk.

In Item No. 156 G we have fixed the line of demarcation between the two classes at 50 per cent instead of 40 per cent. The consensus of opinion was that any fabric of which either the warp or the weft was entirely composed of cotton should be classified at the lower of the two rates applicable to artificial silk mixtures, but that any other form of mixtures with a lower percentage of cotton than 50 per cent should be dutiable at the higher rate.

Item No. 156 J has been re-drafted in a more accurate form without change of substance. The wording now employed is more in accordance with trade practice and nomenclature.

In Item No. 156 L we have inserted as an additional article "Umbrella coverings". The object is to prevent finished coverings for umbrellas being imported at the lower rate applicable to textile manufactures under Item No. 213 H. The assembling of umbrellas is a cottage industry in Bengal of some dimensions, and not only would the import of coverings in made-up forms affect this industry, but it would evade the protective duty imposed on umbrella cloth which is composed of cotton piece-goods.

In Item No. 156 M we have increased the duty on cotton knitted fabrics to 50 per cent *ad valorem* or 12 annas per pound and have abolished the distinction made in the Bill between fabrics of lighter and heavier weights. We understand that at the moment there is practically no import of such goods, but we consider that import should be definitely discouraged in view of the possibility of evading the protection to cotton hosiery by the manufacture in India of undervests, etc., from imported cotton knitted fabrics.

The alteration made in Item No. 156 N merely corrects a printing error.

In Item No. 156 O we have altered the specific duty of 9 annas per pound proposed in the Bill to a duty of 12 annas. The consensus of opinion was that the average weight of imported hosiery of standard size was more nearly 2 lb. per dozen, than 2¼ lb. per dozen, the basis on which the proposal of 9 annas was founded.

The alteration made in entry No. 20 of the Schedule rectifies a drafting error.

In connection with the fabrics described in Item No. 156 G we are assured that the Government have reserved power under the Indo-Japanese Trade Agreement to impose a specific duty not exceeding 5½ annas per pound on classes of goods which do not come under the category of "plain greys" if the respective price levels of Japanese and Indian goods necessitate it. We are also assured that the Indo-Japanese Agreement will not be a bar to the enhancement of the duties on yarns or artificial silk goods should the duties now proposed prove inadequate.

The amendments made by us in Items Nos. 157 A, 158 A, 156 L, 156 M and 156 O have the effect of increasing the taxation proposed by the Bill and are therefore not covered by the previous sanction accorded by the Governor General to the Bill as introduced. The necessary previous sanction of the Governor General has been obtained to the making of the amendments specified.

A majority of the non-official members desired to add to the report a recommendation to Government to consider the advisability of appointing a Trade Commissioner in Japan at an early date.

2. The Bill was published in the *Gazette of India*, dated the 10th February, 1934.

3. We think that the Bill has not been so altered as to require re-publication, and we recommend that it be passed as now amended.

MINUTES OF DISSENT.

In continuation of the note of dissent signed by me jointly with Dr. Ziauddin Ahmad I have to submit as follows :

1. The most noticeable feature of the present Report is that in as many as five instances, viz., items 137 A, 138 A, 138L, 138 M and 138 O, amendments made have the effect of increasing the taxation proposed by the Bill. It is also a novel feature so far as my experience of this Assembly is concerned. The fact that the Government have accepted these amendments and are obtaining the sanction of the Governor General as regards these increases, goes to show that either the Government enquiry leading to the Bill was superficial or that the Department of the Government concerned with the preparation of the Bill was unaware of relevant and important considerations which led them subsequently to change their mind and accept the amendments. In either case it is regrettable in the extreme.

2. Further in the case of item 138 O, viz., Cotton Hosiery, the Government had before them the Report of the Tariff Board regarding the grant of protection to the cotton textile industry for a period of over two years during which they have had the amplest opportunity of studying the matter and arming themselves with all relevant information. At any rate it may be reasonably expected that a Department of Government which considers itself efficient must have done so before their conclusions were embodied in the form of a Bill.

3. In the connection it is to be noted that the present Bill was introduced in the Legislative Assembly on the 5th February this year. Prior thereto another Bill dealing temporarily with Cotton Hosiery among other matters had been fully considered both by the Assembly and by a Select Committee and Government had before them all the pros and cons of the matter. This latter Bill was based on the recommendations made by the Tariff Board and imposed a duty of Rs. 1-8-0 per dozen underwears and 10 annas per dozen pair socks and stockings, although the Tariff Board had recommended 8 annas per dozen pair.

4. Further, in the course of the proceedings of a Sub Committee of the Select Committee in connection with this prior Bill, it was authoritatively stated by the Government representatives that an *ad valorem* duty of Rs. 1-8-0 per dozen was equivalent to 9 3/5 annas per lb., thus accepting the view that the average weight of imported hosiery of standard size of 32" was about 2 lb. 8 oz. per dozen.

6. It was a matter for surprise to find that in the Select Committee to which the present Bill had been referred the proposal to alter the specific duty of 9 annas per lb. to one of 12 annas per lb. was accepted on behalf of the Government. This was absolutely contrary to the view previously entertained by Government representatives and against the basis on which the proposal of 9 annas was founded.

7. According to the information supplied to the Committee, it appeared that hurried telegrams were sent by the Government to the several ports of India—Calcutta, Bombay, Karachi and Rangoon—just before the consideration of this hosiery matter by the Select Committee and the replies received by the Government formed the basis on which the fresh proposal for 12 annas per lb was founded.

8. In the first place I submit that a statement containing highly technical information like the one in point which induced the Government to accept the increased basis of 12 annas per lb should have been circulated amongst the Members of the Select Committee so that a layman like myself would have had time to follow it. To throw a complex and complicated statement at us at the eleventh hour and ask us to express an opinion on it immediately was, to say the least, most unfair.

9. The statement in question imported—

(a) the average weight of imported hosiery of standard size being more nearly 2 lb per dozen;

(b) the standard size being 30 inches;

(c) an examination of a large range of qualities of sizes 28" to 34" in the ports of Calcutta and Bombay; and

(d) the ascertainment of their average c. i. f. prices per dozen in Calcutta and Bombay.

10. I submit that in view of the abandonment of the position taken up by the Government in the Bill as introduced at the eleventh hour on the basis of hurried enquiries made by the Government in distant ports, it was incumbent on the Government to embody the result of their researches into a document and afford adequate facilities and opportunities to the Members, if they so desired, to examine the matter in detail and scrutinise. Instead of it, the whole matter was finished at one sitting within half an hour.

11. In case such facilities and opportunities were allowed, the following defects would have been apparent:—

(i) While the price of the Indian underwear was taken as of 1933, that of comparable Japanese vest was taken as prevailed in 1934.

(ii) While the standard size is 32" and was so taken by the Tariff Board, it was taken as 30" in connection with the latest enquiry by the Government.

(iii) The enquiry was restricted to the lighter class of hosiery suitable for summer wear inasmuch as the heavy or hosiery, suitable for winter wear is not imported until about the month of September—October preceding the winter.

12. It is submitted that if a proper enquiry was made and the investigation was made with an eye to these points, then the average of the results obtained will work out at figure of even less than 9 annas a lb.

13. The summer underwear of 32" standard size, now coming in from abroad and available in the market, varies in weight from about 1 lb. 8 oz. to 3 lb. 8 oz., viz., 1 lb. 8 oz., 2 lb., 2 lb. 8 oz., 3 lb., and 3 lb. 8 oz. per dozen, the average weight per dozen being 2 lb. 8 oz. The winter underwear of 32" standard size will vary in weight from about 4 lb. to 9 lb. per dozen the average weight being about 7 lb. per dozen. These heavier winter goods have not been taken into consideration either by the Tariff Board of the Government or the Select Committee. Their inclusion will wholly alter the complexion of things.

14. A uniform rate of duty either on a weight (per lb.) basis or on a quantitative (per dozen) basis is bound to operate harshly in respect of certain classes of hosiery. If it is levied per dozen as was the case under the Act recently passed then it becomes prohibitive in case of goods inferior in quality and therefore cheaper in price, as also smaller in sizes. If the duty be levied by weight, as is proposed under the present Bill, its incidence works most harshly against the coarser and heavier goods. Under the circumstances

we should proceed on the basis of a graduated scale A duty of 6 annas per lb for goods up to 3 lb in weight and 6 annas each successive lb. for those above 3 lb. in weight will meet the requirements of the case.

14. Lastly I submit that Pongee Silk should be assessed at a duty of 50 per cent ad valorem only

A. H. GHUZNAVI.

At the outset of our deliberations some of us expressed our desire to call attention to the problems that might arise in connection with the commercial and trade relations between India and Burma in the event of the separation of Burma from India.

We felt that the example of the Bombay-Lancashire Agreement might be taken as a precedent and the Indian textile and steel interests might make attempts to secure free import into Burma in exchange for similar rights granted to Burma for her exports and feared that an agreement to this effect might be imposed by the Constitution Act without the approval of the Indian Legislature. We expressed the opinion that any such agreement would be disastrous to the best interests of the country in general and to the interests of the agriculturist in particular, and desired to record our view that trade relations with a separated Burma should be the outcome of an agreement between the new Indian and Burma Legislatures and agreements of private persons or interests should not be permitted to encourage or influence the Government to obtain legislative sanction until the interests of the country as a whole call for it

To turn to the legislative proposals before us, a Select Committee was never faced with problems of such complexity and conflicting interests as the Committee had to face Our task had not been lightened by the reports of the Tariff Board which have been found capable of being interpreted in support of any and in some matters even directly opposite views The Tariff Board on the Cotton Textile industry have admitted that they were handicapped in their enquiry for want of the necessary power to compel the production of evidence They stated that the unattached mills and the Chambers of Commerce have contributed little or nothing to that enquiry We have come to know that the enquiry was not held in several centres. The Government themselves are unable to give any more indication of the state of the industry than what was given by the Tariff Boards themselves We regret to have to note also that the evidence before the Tariff Board was not available to us, as it is not printed although it is now about 2 years since the enquiry was held. Under these circumstances it cannot be said that we have been able from the material before us to judge adequately the condition of the industry as a whole

Protection.—The principle that the cotton textile and silk industry of the country deserves protection from unfair foreign competition was accepted by the House when the Bill was referred to us. We, therefore, refrain from making any observations on the need for continued protection. But the extent to which protection is necessary to the industry has been left to us as a matter for our careful consideration The protection required by the condition of the industry in Bombay has been often taken as the basis for the measure of protection necessary for the industry as a whole but we consider that however important the interests of the city of Bombay may be the measure of protection necessary for Bombay industry is not the measure of protection necessary for the industry taken as a whole The labour conditions, the non-production of necessary raw materials in its neighbourhood, and other circumstances have made matters difficult for the industry in Bombay to take the same advantage of the shelter afforded them by the policy of protection which Ahmedabad and other centres have admirably been able to We believe that the paid up capital of the industry in Bombay is only about 25 crores of rupees. Although it is difficult to assess the burden on the consumer, according to the calculation of one expert the policy of protection within the last 4 years has thrown no less than Rs. 65 crores of burden on the consumers of the country and yet the industry is demanding even greater protection The Tariff Board is unable to say when the industry will be able to dispense with protection. In view of what was stated in the earlier part of this note, on the non availability of information regarding the state of the industry in the country as a whole, we are not convinced

that the mill industry as a whole in the country has enabled us to know the extent to which protection, if any, is necessary for the industry.

Having regard to the fact that continued protection means continued transfer of wealth of the comparatively poorer rural classes to the relatively richer industrialised groups of interests, we would like to lay great stress on the need for having more accurate information on the condition of the industry and some amount of control on the industry itself. The Indian Mill Industry is domineered by managing agency system of firms. The Tariff Board on the cotton textile industry had come to the conclusion that the managing agency system should be statutorily controlled. The revision of the Indian Company's Act is long overdue. The Governmental members of the Committee assured us that the Government propose to take steps in making changes in the Indian Company's Act. We regret to have to note that we are not given any indication of the nature of the steps they propose to take. We desire to express our opinion that unless the Government take effective measures to deal with inter-mill finance and check the system of finances, block capital, expenditure and the system of commissions, and other evils associated with the managing agency system, and control the other factors arising out of the financial interests of managing agents in subsidiary services, the claim for protection and the extent to which it is necessary cannot be justified. When the industry asks the country to share its troubles, the country must have the right to share in those rights which otherwise would be respected as purely private rights.

Imperial Preference.—Some of us, Mr. Sitaramaraju, and Mr. B. Das, are strongly of opinion that as the country is dependent upon a number of countries other than the United Kingdom and Japan for the purchase of our agricultural produce, it is essential in the best interests of the country to maintain the good will of those countries who are our best customers. Preferential tariffs in United Kingdom and favoured nation treatment to Japan under the respective agreements are likely to prejudice our trade relations with other countries, who are our best customers and they are opposed to them. Dr. Zaheer Ahmad, however, considers that in view of Ottawa Agreement, preference of 10 per cent may be given to British goods. We consider that this being a protected industry, the Ottawa preferences are not applicable and need not be followed. With regard to other terms of the agreements not covered by the Bill as for customs clauses relating to surcharge, we wish to specially note that the Committee should not be construed to have in any way consented to these terms. We are also of opinion that the quota fixed for Japan is high. Further when a quota is fixed for Japan, a high rate of protective duties is unnecessary, in view of Japan being the only serious foreign competitor.

Period and extent of Protection.—The proposed protection under the Bill is to extend up to 1939. We have already remarked the limitations under which we had to judge the extent of protection necessary for the industry. Subject to these reasons, we consider the present period and protection is too long and should be reduced from five to three years. The Japanese agreement being for a period of three years, by fixing these duties for a period of three years, the Assembly would be placed in a position to review the whole situation.

Cotton Yarn.—The cotton yarn is a primary commodity for handloom weavers and the rise in its price will seriously affect the prosperity of the handloom industry and will place it in unfair competition with the Indian mills. The Tariff Board Report (page 37) says, "Very little imported yarn is now used in the Indian mills . . . most of the yarn which is now imported is used by the handloom industry." As the Indian Mill product on of yarn of counts 40 and above being only 3·7 we desire to point out that there is no justification whatsoever to impose any import duty on counts of 40 and above while the existing duty having succeeded in protecting the interests of Indian Spinning Mills, regarding lower counts we feel that further increase is unnecessary.

In order to protect the handloom industry from the mill competition, we desire to impress upon the need for an agreement by the mill industry not to manufacture cloth of counts below 20 to avoid competition with handloom weavers. In case the mill industry does not agree to enter into such an agreement with the Government, we propose that the Government

should levy a cess on such mill production in the manner indicated by the Tariff Board in aid of the handloom industry. The difficulty felt by the Tariff Board with regard to the levy of cess, in view of the position of the industries in Indian States could be easily overcome by the Government as it has been able to in the case of matches and sugar.

We wish also to place on record that several Local Governments have not taken due interest in their local industries, sericulture in particular, and the want of co-operation on their part has retarded their healthy development.

The importance of the Agreement with Japan has been overestimated. It is very doubtful whether the Agreement would prove beneficial to India. The purchasing capacity of the people of India is going down very fast. The total amount of consumption is being substantially diminished. Since the quota has been given to Japan, the loss in the total quantity of consumption would fall substantially on Indian mills who will find it difficult to get market for their entire production and they would be compelled to curtail their output. I would have liked the quota to be given to Japan not in absolute quantity but in a fixed proportion to the cloth manufactured by the Indian mills.

I believe that the time has now come to revise the old treaties. The circumstances have now changed. In pre-war days the currency of every country was fixed in terms of gold and the limits of appreciation and depreciation were very narrow. At present most countries are maintaining the currency whose value in terms of gold is very fluctuating and it is impossible to frame rules that may be applicable to all the countries.

2. I also apprehend that the quota which Japan has got to the purchase of cotton will very easily affect the price level of cotton. Japan in future will control the price of cotton market in India and the appreciation in the price level of cotton will be out of question. This will very much handicap the agriculturists who are not getting at present the economic price for their cotton.

3. I have not got sufficient data to find out the effect of the protective measure on the revenues of the country. The protective measures, if they are protective, must necessarily diminish the import and consequently the revenue duty would result in the fall of Governments revenues. The Government have not laid any figures by means of which the loss to the Government revenues may be calculated. This loss must necessarily lead to the imposition of new taxes to get sufficient revenue. This protection is, therefore, a tax on the consumers and it is also a tax on the tax-payers of the country. It is the duty of the Government to devise methods in all cases where protection is given to find out that the additional taxation is for the benefit of the people of India and not for the benefit of a few capitalists. The Government made a mistake in the case of sugar, which they are now attempting to rectify. Let them not repeat the similar mistakes in case of other commodities which they now aim to protect.

4. I take this opportunity to point out that in calculating the purchasing capacity of the people we often ignore the fact that the people of India have to pay an invisible tax in addition to the direct and indirect taxes levied by the Government. In European countries the unemployed are always maintained by the Government by the visible taxes, which the Government collects from the people. In India the unemployed persons are maintained by their relatives and friends. No figures for this invisible taxation are available but from personal enquiry I find that this tax varies from 15 to 50 per cent and I will be correct, if I say, that every person in India has to pay an invisible tax of 0-4-0 in a rupee, which he spends in maintaining the families of his relatives and friends. The fall in the income of the people has reduced the purchasing power of the people. It is estimated that the income of agriculturists has fallen by 800 crores and of income tax payers by 100 crores.

Artificial Silk Yarn :

India at present is not spinning artificial silk yarn and the question of its protection does not arise. It is incorrect to assume that artificial silk competes with real silk. Persons who really wear silk would not dream of artificial silk. It is used only by persons who otherwise would have used cotton piecegoods. The duties on artificial silk yarn should be the same as on cotton yarns. High specific duties should not be levied on silk unless a demand is made by the Provinces. At present the provincial Governments do not encourage the silk industry and it is unfair to tax the consumers in British India for the benefit of Mysore and Kashmere States

ZIAUDDIN AHMAD

The trade of hosiery has been in a very unfortunate position on account of the inability of the Government to make up their mind definitely. The Government brought their legislative proposals about the customs duty on hosiery in two entirely different Bills in the same Session of the Assembly. Specific duty of Rs. 1-8-0 per dozen was levied on hosiery under the Tariff Amendment Act passed by the Legislative Assembly in February 1934. The specific duty levied in this case was a uniform one and did not vary with the size, as in other articles included in the same Bill. The same specific duty was levied on all sizes, and it was equivalent to a duty of 200 per cent *ad valorem* for sizes between 16" to 20" and to 150 per cent for sizes 20" to 24".

2. The Select Committee appointed by the Assembly to consider the Tariff Amendment Bill considered the question of fixing a specific duty by weight and not by number. A sub committee was appointed for this purpose and it was pointed out by the Government representatives in that sub committee that ad valorem duty of Rs. 1-8-0 per dozen is equivalent to nine three-fifth annas per lb but the Select Committee by a majority supported the Government proposals which was also the recommendation of the Tariff Board that a specific duty should be by number and it should be Rs. 1-8-0 per dozen for undervests and 0-10-0 per dozen pair of socks, although Tariff Board recommended only eight annas per dozen pair of socks.

3. Hosiery is again included in the present Text in Bill and the Government proposed a specific duty of 0-8-0 per lb. on hosiery in place of the specific duty by number. The hosiery is a small subdivision of textile industry and its natural place is in the present Bill. It was an unnecessary to include it in the first Bill which contained miscellaneous articles. The Government during the course of discussion in the Assembly or in the Select Committee did not give any reason for including the hosiery in two different Bills with different incidence of taxation in the same Session.

4. We do not agree with the recommendations of the majority that a specific duty of 0-8-0 per lb. proposed by the Government should be raised to 0-12-0. The reason for enhancement of this duty as given in the Select Committee was as follows :—

	Per dozen.
"The Fair Selling Price as determined by the Tariff Board for undervests comparable with Japanese imports weighing 2¼ lb. per dozen is	63 annas.
(1937 Tariff Board's Report.)	
Average c.i.f. prices per dozen at Calcutta of a large range of qualities of sizes 26" to 32" with an average weight of 2 lb. 4 oz. per dozen is	32 8
The corresponding c.i.f. price when the average weight is raised to 2¼ lb. per dozen as taken by the Tariff Board would be	35-7
The protective duty required on these Calcutta figures for one dozen weighing 2¼ lb. is therefore	28-3
And this is equivalent to 10½ annas per lb	
Similarly—	
Average c.i.f. prices per dozen at Bombay of a large range of qualities of sizes 26" to 34" with an average weight of 2 lb. 10½ oz. per dozen is . . .	30-6
The corresponding c.i.f. price when the average weight is reduced to 2¼ lb. per dozen as taken by the Tariff Board would be	28-7

The Protective Duty required on these Bombay figures for one dozen weighing 2¼ lb. is therefore 33-3.

And this is equivalent to 13·3 annas per lb. Taking the average of the results for Calcutta and Bombay we obtain as the necessary Protective Duty on Cotton Undervests a figure of 11·3 annas per lb or say 12 annas per lb."

5. The Tariff Board on page 170 has given 38 annas a dozen as the *c.i.f.* price of Japanese vests and the present price has given in the above statement is 35·7 annas a dozen. The difference is due partly to further depreciation of Japanese Yen since the Tariff Board wrote its report two years ago, and partly to the fact that the Tariff Board took 32 inches size as average for its calculation, while the average in the above statement is 30". There is an important omission in the arguments used for enhancing the rate. The prices for Japanese goods have been changed from 1932 figures to present day figures, but the cost of manufacture has not been altered to the present price level. The wages and the cost of raw material have both gone down during the last two years. If we alter the Tariff Board's figures for the Japanese goods to the price level prevailing in 1934, we should also alter the figures for the cost of manufacture to the present conditions, and use the same standard size (32 inches) in both cases. To alter one and to retain the other is unfair and unjust. We should either accept the figures and conclusions of the Tariff Board Report or alter all the figures to 1934 conditions for which fresh enquiry is needed.

6. The other point which will attract the attention of every person is the enormous difference in the *c.i.f.* price in Bombay and *c.i.f.* price in Calcutta. The *c.i.f.* price in Calcutta is 35·7 for 2¼ lb. weight while it is 28·7 in Bombay. The enormous difference is probably due to the fact that people of Bengal use buttoned vests of greater length and in hot weather they use them in place of shirts. Bombay imports very largely vests without buttons and smaller in length. Bengal manufacturers also make to a large extent buttoned vests, and of greater length and the cost of manufacture must have been on that basis.

7. The cost of manufacture calculated at 62 annas per dozen by Tariff Board is to-day only 56 annas the reduction being due to fall in wages and the fall in the price of yarn.

8. The point which we should like to emphasise is that either we should accept the figures and the recommendations of the Tariff Board and levy the duty of Rs 1-8-0 per dozen or 0-2-9 per lb as proposed by the Government as its equivalent. If the Government gives up this position then we strongly urge that the whole question should be enquired into afresh by the Tariff Board or by a Special Officer. The figures given by Tariff Board (page 178) show that the import has fallen from 6·7 million dozens in 1924–27 to 2·5 mill on dozens in 1931–32 and the quantity manufactured in the country has risen from 35 to 62 million during the same period. While the import is reduced to half, the home manufacture is doubled in quantity. This cannot be called a menace to the Indian Hosiery Industry.

9. It should be remembered that protection is really a tax on the consumers and it is also a tax on the tax-payers. The protection, if it is protection, necessarily involves a loss of revenue which the Finance Member will have to make up by levying a new tax. The increased burden on the consumers and on the tax-payers can be justified if it is for the benefit of the masses, and it cannot be justified if it is for the benefit of a few capitalists. If the protection is intended for the benefit of the cottage industry in hosiery there may be some justification, but it will be unjustifiable if it is intended for capitalists who may in future open mills under the shelter of the protective duty and earn fat dividends. If the Government decides to impose a protective duty it should also be their duty to bring forward a new Bill to safeguard the interests of the cottage industries, and to exercise effective supervision over the mills. The Government cannot leave the matter by merely imposing protective duty. They should learn from their experience of sugar industry.

10. There is one point more which we should like to press. The duty by weight will not very adversely on heavier goods such as fleecy vests. The fleecy vests are not made in any appreciable number in this country. They are not put in Delhi market for sale. We tried to find out in Delhi market whether a fleecy vest made in this country was available and we could not find. The specific duty by weight on this class of goods will work from 100

to 125 per cent and we suggest that no specific duty should be levied on vests having a weight of 4 lb. or more as this quality is not made in this country in an appreciable quantity.

11 The burden on consumers is between two and three times the amount of the custom duty The proposed duty on hosiery will put an additional burden of about one crore of rupees every year on consumers and a loss of about 15 lakhs a year to the Government from the year 1934-35 which will be realised from the tax-payers in a different form.

12 We conclude by recapitulating that the amount of protection to hosiery industry should not be more than what Tariff Board recommended and the additional protection should not be given without further enquiry and that the Government should create machinery to exercise effective supervision over industries enjoying protection.

ZIAUDDIN AHMAD.
A. H. GHUZNAVI

I have recommended higher scales of duty for certain articles on the ground that if protection has to be given to them it must be fair and adequate I have done so purely on their merits.

I will be failing in my duty if I do not place on record certain things that struck me most during the deliberations of the Select Committee. The report of the Tariff Board dealt with conditions in the industry as they existed two years ago. It was the duty of the Government to have furnished the Committee with data bringing the facts contained in the report up to date Not only have they not done that, but they have not even published the evidence taken by the Board. Even the copies of the representations made by certain Associations which I wanted were given to me on the last day when it was too late to digest the facts and use them. I protest strongly against Government not having circulated to the Select Committee the evidence taken by the Tariff Board. For this reason I feel that adequate consideration has not been given to many items and the treatment given to raw silk in particular was, to say the least, very trivial.

I am distinctly of the opinion that though the Government must have the final voice in formulating proposals of this kind, it is highly desirable that all matters on which they disagree with the proposals of the Tariff Board and adopt a different line of policy and conclusion should be remitted to the Board to review them in the light of the new orientation

The textile industry has already had the benefit of protection for some time, but it is notorious that it has not done anything worth mentioning during the time to put its house in order. On the other hand, the Tariff Board clearly states that without the aid of protection the majority of mills in India will find it impossible for a long time to come to realise any return on their capital. I have no doubt that unless some kind of control is observed over the industry by the State, it will not, even if it can, get out of the moribund condition into which it has now fallen. If the industry looks up to the State for protection, the State has every right to lay down certain conditions under which alone that protection can be given.

I wanted the Select Committee to accept this principle and undertook to put forward certain specific proposals to achieve the objects aimed at. The Chairman, however, ruled them out of order on the ground that such provisions were irrelevant in a Tariff Bill, though I brought to his notice that an amendment on similar lines to the Match Protection (Tariff) Bill was admitted by the President and moved in the Assembly by Mr. N. M Joshi in 1928 I pleaded with him in vain and the matter had to be dropped in the Select Committee I cannot approve of the policy of unjustly taxing the already overburdened consumer solely for the purpose of benefiting a handful of Managing Agents and other capitalists in the name of what is called a national industry and although I am prepared to go a long way to help it, as will be seen from the recommendations made in other notes, I have no hesitation in state that unless suitable provisions are made in the Bill itself, or if that is not possible, in a separate enactment, to ensure that the stipulations laid down for the efficient working of the industry are strictly observed, it is not proper to proceed further with this Bill.

K. P. THAMPAN.

NEW DELHI,
2nd April 1934.

We regret we are unable to subscribe to the Report of the Select Committee in respect of the duties on cotton yarns and art silk piecegoods.

Cotton Yarns.—Taking cotton yarns first, as the proposals now stand, the protection afforded to the textile industry will actually be less than that which it has enjoyed since 1927. In that year a specific duty of 1¼ annas per pound was imposed on all yarns. If the same measure of protection were to be maintained and our contention is that from the point of view of prices, of any rate, the competition has become even more acute than formerly — a much higher scale of duties is called for, taking into consideration the increase in costs caused by the import duties levied since 1931 on machinery, appliances and the long stapled cotton which has to be imported for spinning finer counts. According to the terms of the Indo-Lancashire Agreement, the specific duty on yarns from the United Kingdom was to be 1½ annas per pound on all counts. The Bill, providing, as it does, for only an *ad valorem* duty of 5 per cent on counts above 50s reduces it in effect to ¾ annas per pound at to-day's prices, and if the tariffs on the various articles enumerated above are taken into consideration, the effective duty is only a ¼ annas per pound. We, therefore, propose to the Select Committee that the duty in respect of all yarns from the United Kingdom, should be 5 per cent or 1½ annas per pound whichever is higher.

In respect of non-British yarns, the Bill proposes a duty of 6¼ per cent or 1-7/8 annas per pound on counts of 50s and under, and 6¼ per cent with no specific duty, on counts above 50s. At to-day's prices, these proposals, if adopted, must involve spinning mills in considerable losses. To reduce these losses, our proposals in the Select Committee were:—

(a) On 50s counts and under ... 6¼ per cent or 2¼ annas per lb. whichever is higher.

(b) Above 50s counts .. 6¼ per cent or 1-7/8 annas per lb. whichever is higher.

Considering the large quantities of Indian mill-made yarns available for sale, these increases could not possibly hurt the interests of the handloom weaver.

In estimating the reasonableness of these suggestions, we desire to draw attention to an important factor which has recently emerged, namely, the proposed reduction of working hours in factories from 60 to 54 per week, which will materially affect the costs of production and the competitive capacity of the industry.

Art Silk Piecegoods.—The proposals embodied in the Bill with regard to art silk piecegoods are also very unsatisfactory. It may be that the imports of this class of goods have fallen in recent months, but it is a matter for consideration whether the figures in the Sea-borne Trade Returns reflect the true position. We submit that it is not possible to ignore, in this connexion, the undoubted increases which have taken place in the imports through ports in the Indian States. The drop in importations corresponds, besides, to the reduction in imports of all classes of goods brought about by the prevailing depression. If the question is examined from the point of view of prices, it is noteworthy that the wholesale market price in India of Japanese pure art silk taffetas is 4 annas 9 pies to-day as against an average of 4 annas 7 pies in 1932, that is, before the imposition of the minimum specific duty. As regards art silk mixtures, imports from Japan have been increasing fairly rapidly, and it has to be remembered that the definitions have been so altered as to admit in this class several categories of goods which formerly paid the higher specific duty as pure art silk goods.

We are of the opinion that a duty of 6 annas per square yard on pure art silk goods and 4 annas per square yard on art silk mixtures is necessary. Taking into consideration the fact that these goods are outside the Quota, there is reasonable ground for fearing that Japan may concentrate on increasing importations of this type of goods. In this connexion, regard must be had to the enormous expansion of the Rayon Industry which has been taking place in Japan.

In arriving at the conclusions embodied in this Minute, we have not been unmindful of the various conflicting interests affected by the tariff changes

which are contemplated. Our proposals make for a reasonable measure of protection to the textile industry without involving any unfairness to the handloom or other interests, and we trust our views will receive adequate consideration

We are not in agreement with the increase proposed in the duty on art silk yarns. In our opinion, it will affect the interests of the handloom weaver and, to a certain extent, of the mills, without in any way benefiting the Silk industry. In these circumstances, our view is that the present duty of 1½ per cent may be retained.

We are of opinion that an all-round addition of 14 annas to the existing ad valorem duty of 25 per cent is not adequate to the needs of the Sericultural Industry. As a protective measure, it falls short, very considerably, of even the minimum limit suggested by the Tariff Board. As a safeguarding measure, it fails, because the strict application of the principles which have been held to govern other industries, is unsuitable to the circumstances of this industry, and is rendered difficult by reason of the course of foreign prices.

The levy of a uniform duty, by reducing the relative disparity between the prices of superior and inferior qualities of foreign silk, is calculated to stimulate the import of those very qualities which compete most with Indian silk.

We therefore agree to the additional duty of 14 annas in the case of 5 out of the 7 qualities mentioned in the Customs Schedule. In the case of the remaining 2 qualities, viz., "White, other kinds" and "Shanghai, yellow" (the import of which amounts to over 80 per cent of the total) we consider that the additional duty should be Rs. 2-0-0 and Rs. 1-8-0 respectively so as to bring up the price to that of Bengal silk, i.e., Rs. 5-4-6 per lb.

The scope of this Bill is twofold (i) a protection measure for the Textile Industry, and (ii) a safeguarding measure for the Sericultural Industry. The most fair way of dealing with these two different principles and two different principal industries would have been to split up the Bill into two Bills whereby the Textile Protection Bill would have been classed and denominated as "a Bill to provide for the fostering and development of the Cotton Textile Industry in British India". To jumble up a protective measure with certain amendments to the Tariff Act under the cloak of "a Bill to amend the Indian Tariff Act, 1894, for certain purposes" is to undermine the great principles under which protection has been conceived in the past since 1924.

" 2. The Chairman ruled out in the Select Committee amendments to the textile protection part of the Bill which was moved by Mr. Thampan and which would have imposed certain compulsory obligations on the industry protected. The Assembly has long felt and wanted for some such provision in the protection Bills whereby industries protected should discharge certain obligations to the State and the public at large by disclosing their cost of production, by producing statements when required or by conforming to system of licence if Government would so require. In 1931, on 28th January, Sir George Rainy moved a Resolution in the Assembly regarding Import Duties on galvanized iron and steel pipes, etc., seeking the sanction of the Assembly to approve protection upto 31st March 1934. The House was reluctant to grant such full order and wanted annual review to indicate that genuine effort has been made by the manufacturers to reduce their cost of production and increase their output and extended the period of protection for one year only and amended the Resolution by the following compromise :

" " and that before that date Government should make inquiries in order to ascertain whether a system of bounties might not be substituted wholly or in part for the increased duty."

Thereafter, when Government introduced the Sugar Protection Bill, the Assembly insisted on certain definite control over industries seeking protection. The Select Committee introduced a new clause (section 6 of the Sugar Industry Protection Act, 1932) whereby the Governor General in Council was given power to increase the import duty on sugar after due enquiry. If the present Cotton Textile Bill would have been a protection Bill in its true sense it would have been possible for the Select Committee to introduce a clause like section 6 of Sugar Industry Protection Act of 1932. In fact this was recommended by the Tariff Board in paragraph 109 in their report on Cotton Textile industry. The Select Committee on Sugar Protection Bill further insisted that the Governor General in Council should, as soon as possible, thereafter, give the Legislature an opportunity to consider his action whenever they exercised this power.

3. Some of us feel very strongly that Government would be empowered to exercise control over industries receiving protection or concession from the State. Government exercise such control over Railways, Tramways and Electric Supply Companies. Licencees have to submit accounts, balance sheets and conform to certain principles laid down by the Government. The Select Committee on Sugar Industry Protection Bill discussed such obligations and such control in great detail and in the main report referred to many aspects thereof. Section 5 of the Sugar Protection Act, 1932, gave power to the Governor General in Council to make " rules requiring owners of sugar industries in British India to make such returns relating to the production of sugar." That Select Committee in paragraph 3 of their report observed : " We also recommend that annual report should be presented to the Legislature showing the amounts expended on and the progress made in research and development " of sugar and sugarcane. In the present instance the Government also contemplate to investigate how handloom weavers can be benefited by supply of yarn on co operative lines, but the Select Committee could not introduce a clause like section 6 of Sugar Industry Protection Act, where the Local Governments were empowered to impose certain obligations. Government are asking the Legislature to give further power through the Bill to regulate the price of sugarcane for use in sugar factories which Mr. Rajpai has already introduced in the Assembly.

4. In camouflaging the Cotton Textile Protection Bill under the disguise of an Amending Bill to Indian Tariff Act, the Government have deprived the Textile Industry possible relief in future and have curtailed the accruing rights of the Assembly to insist on the Government to exercise greater control and direction over industries so protected. In 1932 March, such ideas were uppermost in the minds of the Members of the Assembly. The Sugar Industry Select Committee discussed it threadbare and at one stage a licensing clause was drafted by the Government but was later on not followed by them as they feared discrimination against foreign capital. I quote here in extenso the Minute of Dissent that Sir S. C. Mitra and myself wrote on this main aspect of the broad principle of protection which applies to all industries claiming or receiving protection. I quote from page 3, paragraphs 5 and 6 of that Minute of Dissent :

"As long as we are working under the present Constitution it is idle to think of discrimination within the British Empire. I am for ungrudging reciprocity with consent of respective Dominions concerned inside the British Empire. If that assurance would be given, our European colleagues in the Central Legislature would gladly join issue with us to control foreign investment in India, similar to the case we apprehend in the case of sugar industries. I must draw attention of the Legislature to the menace of foreign capital and control to Indian Industries. The Legislature and the Government should particularly watch cases where the Government grant concessions to particular industries. Already the electric industry in Bombay have been controlled by Americans. The protection to match industries brought us the Swedish combine. At present Government exercise no control over these foreign invasions. There is further menace from America and the continent to our steel industry and shoe industry. There is menace to our cotton Mill Industry from Japan and Germany. Is it not high time that the Government should legislate for every individual case if they cannot at present introduce general legislation to protect industries in India in the interest of India?

To meet the serious situation stated in paragraphs 4 and 5, I propose the following new clause to be added to the Bill. In fact this draft clause was discussed in the Select Committee and my colleagues had no objection to it except that it raised broader issues of racial discrimination over which my colleagues did not feel competent to express opinions at that stage."

The new clause proposed should be as a sub-clause to clause 4

(2) In order to secure that sugar factories in British India shall be developed and controlled in the best interest of India,—

(a) requiring that no person shall own a sugar factory without a licence in that behalf;

(b) prescribing the qualifications of persons to whom such licence may be granted;

(c) prescribing the duration and conditions of such licences;

(d) determining the authority by whom such licence shall be granted; and

(e) generally to carry out the purposes of this section.

In making such rules the Governor General in Council may provide that a contravention thereof shall be punishable with fine which may extend to five thousand rupees on each occasion."

I very much regret that the Government have failed to appreciate their obligations to the people and even to the industries concerned in drafting the present Bill and they have ignored the salutary recommendations of the Tariff Board in this important direction.

6. As regards protection to Sericulture Industry, I hold the view that the Government ought to have brought a separate Bill for the same as they desire to give protection to that industry under the Safeguarding Act in order to enable it to maintain the price level of 1926. The Sericulture Industry needed better fate as it grew, and if properly fostered and developed, it would give subsidiary income to millions of agricultural people. I would have welcomed the same level of duty on raw silk and silk yarn at the rate of Rs 2-8-0 per lb. I regret very much that we in the Select Committee could not persuade the majority to accept that view. As regards the silk fabrics protection under new scale of tariff affords almost the same protection as has been recommended by the Tariff Board. Unfortunately the scale of tariff is so designed as to discriminate against Chinese silk fabrics. From figures supplied to us by the Government and Chinese trades representatives it appears Japan gets an advantage of 15 to 30 per cent in certain articles. On the other hand Chinese silk piecegoods have been represented to us to contain size and therefore of heavier weight in certain cases. This is a point that the Executive must scrutinize and if possible so revise the scale of tariff as would not favour Japan against China which country is stated to be a friendly consumer of Indian rice and cotton.

8. The spokesmen in the interest of cotton mills claimed higher import duty on cotton yarn which I had to oppose in the interest of the handloom weavers. Higher duty on yarn unnecessarily raises the prices of Indian yarn whereby the margin of profit to the handloom weavers is greatly reduced. At the same time I feel the Textile Industry ought to get long staple cotton free of duty for weaving finer counts. I therefore recommend that the Government should refund to *bona fide* millowners all import duties levied on long staple cotton when it is proved that such cotton is not produced in India. Relief in this direction will encourage manufacture of fine yarn and fine piecegoods and will not harm the cotton producer in any way.

9. The Secretary of State has already broadcasted negotiations between the Government of India and the Government of Britain for an official Indo-British Trade Agreement. Such negotiations will be most welcome for one particular reason, namely, that it will fill up the lacuna left out in the non-official Indo-Lancashire Pact. This Mody Lees Pact in Mr. Mody's own words, is meant to foster spirit of mutual goodwill with a view to solve economic problems by mutual adjustments. But Mr. Mody adjusted nothing, demanded no quota for the Indian cotton but in fullness of heart gave certain concessions to operate immediately and others a year hence. The underlying feature of the Indo-Japanese Trade Agreement is the well-known principle of trade by barter and that Japan should buy as much cotton and India will buy so much piecegoods. This essential principle namely, exchange of commodities on quota basis did not find a place in the Mody-Lees Pact and therefore it has met such wide condemnation. I do hope the official negotiations between India and Britain will recognise this essential element of trade negotiations and incorporate in the agreement compulsory obligations on Lancashire to buy Indian cotton. Even in certain British quarters it is held that Lancashire must buy a minimum of one million bales of cotton. I will welcome such an agreement and I do hope it will fructify at an early date.

8. This brings me to the principle of Imperial Preference, that has become the main underlying feature of both the Indo-Japanese Agreement and the Mody Lees Pact. I must confess that until I sat on the Select Committee I could not appreciate the situation that all commercial organisations in India and the entire Press in India and most of the publicmen have blessed the Indo-Japanese Agreement which implicates a preference of 25 per cent to British Empire by the inclusion of the most-favoured nation treatment clause in that agreement. Sir Joseph Bhore pointed out in his reply to the debate :

"I claim to have a certain amount of personal acquaintance with the views of the dissentient section of the industry, and, if I am right, the difference between the section of the industry which is opposed to the Millowners' Association, Bombay, and the latter, is that the former considers that a duty of 25 per cent *ad valorem* is sufficient against the United Kingdom, whereas the latter considers 20 per cent will be sufficient."

The Mody-Lees Pact concedes another 5 per cent preference at a certain future date only. I myself along with others have blessed Indo-Japanese Agreement and condemned Mody-Lees Pact, on the wrong notion that Mr Mody enabled the Government to incorporate preference to Britain through the Mody Lees Pact. The country must recognise that the Agreement and the Pact both agree to Imperial Preference, though their difference is only in degree of preference, which means that all sections of commercial opinion in India have approved and blessed the Imperial Preference as the recognised feature in India's commercial relations with Britain. This new orientation of policy and outlook in Indian commercial world will have far-reaching effect on Indo-British relationship and I wish the public to recognise that. On principle, I have been all along opposed to Imperial Preference so long, but with the revision of view of the Indian mercantile community, Indian politicians must feel that they have been given the cold shoulder by the Indian commercial world. Public and nationalist Press must face the realities and the question emerges "if principles cannot be sacrificed for better friendship of India and Britain."

I had been unusually hard on my friend Mr. Mody for the Mody Lees Pact. I cannot blame Mr Mody any more that he is alone party to the Imperial Preference. What the general complaint is that Mr Mody ought to have bargained his pact on quota basis. Anyway that particular grievance will get redressed when official Indo British Trade negotiations take place.

Undervests, Socks, Stockings are now protected by a duty of 12 annas per lb. or 25 per cent., and the Hosiery Fabric by 12 annas per lb. or 50 per cent. Other Hosiery products which are imported are mainly classified as apparel and pay 35 per cent duty if foreign, or 25 per cent duty if from the U.K. The duties on Undervests, Socks, Stockings and Fabrics should prove sufficient but we fear that as the duty on apparel is comparatively low attempts to evade the specific duty of 12 annas per lb. on Undervests will be made by alterations or embellishments to garments which are practically Undervests to smuggle them in, under the apparel duty by calling them Pullover Slip-overs, Coats, Sweaters, Shirts, etc. We realise there may be administrative difficulties in the customs but we understand the Customs Department will take action on attempts at deliberate evasion.

I am not satisfied with the duty fixed for artificial silk yarn. Silk industry, specially in Bengal, is a very ancient industry and at one time it used to export very large quantities to European countries. The industry is decaying on account of lack of popular interest and Government encouragement was observed by the Tariff Board in page 34. There is universal agreement with the fact that the grants available from the Government are utterly inadequate for this ancient industry which has great future possibilities as a source of subsidiary employment for the agriculturists and main employment for the lower strata of Bhadralog class. Apart from the competition by China which in 1932-33 exported into India out of a total export of 3,500 bales of silk 2,000 bales—and apart from the competition by the raw silk imported from China and Japan the real danger to the silk trade is the very large growing importation into this country of artificial silk and silk yarn from Japan and China and other countries. As a matter of fact between 1928-29 and 1932-33 the imports of the class has increased from 39,750 pounds to 263,160 pounds. From the Committee on Agriculture in 1925 drew pertinent attention to the danger to the silk trade from the artificial source. But although the Tariff Board in its enquiry as to what protection ought to be given to the trade recommended a protection to the Industry of Rs. 2-4-0 per pound or 50 per cent, *ad valorem* on silk and Re. 1 per pound on artificial silk only 25 per cent *ad valorem* and a duty of 12 annas on the former and 3 annas on the latter has been given by the Bill. This is wholly inadequate and the difference between the recommendations of the Tariff Board and the Government was supported on a wrong assumption that no case for protection but one of safeguard was made out. In my opinion if the silk trade is to be given real protection which it eminently deserved the duty recommended by the Tariff Board should be given.

I endorse the above recommendations contained in Mr. S. C. Sen's note.

L.A. BILL No. 5 OF 1934.

[AS AMENDED BY THE SELECT COMMITTEE.]

[Words printed in italics indicate the amendments suggested by the Committee.]

A Bill further to amend the Indian Tariff Act, 1894, for certain purposes.

VIII of 1894. WHEREAS it is expedient further to amend the Indian Tariff Act, 1894, for the purpose of affording protection to the agricultural industry and to the cotton and silk textile industries in British India and for certain other purposes; It is hereby enacted as follows:—

Short title and commencement. 1. (1) This Act may be called the Indian Tariff (Textile Protection) Amendment Act, 1934.

(2) It shall come into force on such date as the Governor General in Council may, by notification in the *Gazette of India*, appoint in this behalf.

Amendment of the Second Schedule, Act VIII of 1894. 2. The amendments specified in the Schedule to this Act shall be made in the Second Schedule to the Indian Tariff Act, 1894

VIII of 1894.

Bar of operation of the Indian Finance Act, 1931, and the Indian Finance (Supplementary and Extending) Act, 1931. 3. Notwithstanding anything contained in section 4 of the Indian Finance Act, 1931, or in section 4 of the Indian Finance (Supplementary and Extending) Act, 1931, the additional duties imposed by those sections shall not be levied or collected on any article chargeable with duty under Item No. 43C, 47, 157A, 157B, 158, 158A, 158B, 158C, 158D, 158E, 158F, 158G, 158H, 158J, 158K, 158L, 158M, 158N or 158O of the Second Schedule to the Indian Tariff Act, 1894, as amended by section 2 of this Act.

VIII of 1896.

Duration. 4. The amendments made by section 2 shall have effect only up to the 31st day of March 1939.

THE SCHEDULE.

(See section 2.)

Amendments to the Second Schedule to the Indian Tariff Act, 1894.

1. Item No. 24C shall be omitted.

2. In Item No. 43C, for the entry in the fourth column, the figures and words "25 per cent *ad valorem* or 3 annas per pound, whichever is higher" shall be substituted.

3. Items Nos. 43D, 44, 45 and 45A shall be omitted.

4. After Item No. 46D the following item shall be inserted, namely:—

"47	Starch and flours	*Ad valorem* 15 per cent."

5. In Item No. 78, the words "Silk waste, and raw silk including cocoons," shall be omitted.

6. For Item No. 100 the following item shall be substituted, namely:—

"100 YARNS AND TEXTILE FABRICS, that is to say:—
Cotton thread other than sewing or darning thread.
Yarn, twist and yarn.
Hemp manufactures.
Jute twist and yarn, and jute manufactures, excluding second-hand or used gunny bags or cloth.
Blankets and rugs (other than floor rugs) excluding blankets and rugs made wholly or mainly from artificial silk.
Fabrics not otherwise specified, containing not more than 10 per cent silk or 10 per cent artificial silk or 15 per cent wool or 50 per cent cotton."

7. Item No. 133 *with the heading thereof* shall be omitted.

8. After Item No. 157 the following heading and items shall be inserted, namely:—

"TEXTILE MATERIALS.

"157A	Yarn, raw (excluding silk waste and rolls), and silk cocoons.	*Ad valorem* 25 per cent plus 12 annas per pound.
157B	SILK WASTE AND ROLLS	*Ad valorem* 25 per cent."

9. For Item No 158 the following items shall be substituted, namely:—

"158	Cotton twine and yarn, and cotton sewing or darning thread—		
	(I) of counts above 50—		
	(a) of British manufacture ...	*Ad valorem*	4 per cent.
	(b) not of British manufacture.	*Ad valorem.*	6½ per cent.
	(II) of counts 50's and below—		
	(a) of British manufacture ...	*Ad valorem.*	5 per cent or 1½ annas per pound, whichever is higher.
	(b) not of British manufacture.	*Ad valorem.*	6½ per cent or 1½ annas per pound, whichever is higher.
158 A	Silk yarn including thrown silk warps but excluding sewing thread and yarn spun from silk waste or noils.	*Ad valorem.*	25 per cent plus 12 annas per pound.
158 B	Silk yarn spun from waste or noils and silk sewing thread	*Ad valorem.*	25 per cent.
158 C	Cotton yarn not otherwise specified containing more than 90 per cent of cotton—		
	(I) Grey piecegoods (excluding bordered grey chadars, shirtings, saries and scarves)—		
	(a) of British manufacture ...	*Ad valorem.*	25 per cent or 4½ annas per pound, whichever is higher.
	(b) not of British manufacture.	*Ad valorem.*	30 per cent or 5½ annas per pound, whichever is higher.
	(II) Cotton piecegoods and fabrics not otherwise specified—		
	(a) of British manufacture ...	*Ad valorem*	25 per cent.
	(b) not of British manufacture	*Ad valorem*	30 per cent.

The following Report of the Select Committee on the Bill to provide for the imposition and collection of an excise duty on sugar was presented to the Legislative Assembly on the 16th April 1931.

We, the undersigned members of the Select Committee to which the Bill to provide for the imposition and collection of an excise duty on sugar was referred, have considered the Bill and have now the honour to submit this our Report with the Bill as amended by us annexed thereto.

2 *Clause 1.*—Although this Bill only imposes an excise duty, it cannot be considered independently of the import duty on sugar, because the difference between the two must give the necessary measure of protection. We consider that it is implicit in the present proposals that the surcharge should become merged in the import duty and no longer be regarded as a temporary emergency addition, and also that if any proposals are made for the reduction of the existing rate of import duty the Legislature should be given an opportunity simultaneously to review the excise duty.

Clause 2.—The additional definitions are rendered necessary by our decision referred to in the note on clause 3 that a lower rate of duty should be imposed on *Khandsari* sugar and that the rate of duty on palmyra sugar, if any such rate is considered necessary or advisable, should be fixed at some future date after further information is available.

Clause 3.—We have reduced the rate of duty proposed by the Bill to a rate of Re 1 per cwt. upon sugar generally and a rate of ten annas per cwt. on *Khandsari* sugar. Although we recognise that the difference between the import duty *plus* surcharge now in force (Rs. 6-1-0 per cwt.) and the excise duty (Rs. 7-3-0) proposed in the original Bill amounting as it does to Rs. 7-1?-0 per cwt. represents the maximum duty recommended by the Tariff Board and accepted by the Legislature as a measure of protection, we are not satisfied that the preservation of the difference in this manner will produce exactly the same effect as the measure of protection promised. We are also apprehensive that the imposition of an excise duty of Rs 1-6-0 may in the early stages of the development of the sugar industry prove unduly onerous and check that development. On the other hand we consider that a duty of Re 1 per cwt. may be safely imposed.

Our reduction of the rate of duty to be payable by *Khandsari* sugar is prompted by the consideration that there is a lower margin of profit in the case of sugar made by factories working by the *Khandsari* process and that such sugar is accordingly less capable of shouldering the proposed duty.

We are also apprehensive that if the *Khandsari* industry is suddenly seriously damaged that may react on the growers of cane who rely on the disposal of cane or gur to *Khandsari* factories.

In the case of palmyra sugar, we have been handicapped by the absence of reliable information regarding the extent and the nature of the industry, but we feel unwilling to inflict a blow, the effects of which we cannot measure, on an industry which we understand owed its revival to the favourable circumstances provided in the last couple of years and on which very large numbers of the rural population of Madras are dependent. We have accordingly provided that palmyra sugar should be exempt from the excise duty until the duty can be fixed in the light of further information. We desire to record our view that before the Governor General in Council fixes a rate of excise duty on palmyra sugar an opportunity should be given to the Legislature to express its views upon the proposals of Government.

Clause 4.—We have reduced the amount of the penalty which may be exacted for non-payment of duty.

Clause 5.—The change here made assimilates the wording of the clause to that used in sub-clause (*f*) of clause 3.

Clause 7.—We consider it unnecessary to impose a penalty of imprisonment for an offence under this clause. We have, however, enhanced the fine which may be imposed.

Clause 8.—We have enhanced the fine to accord with that now provided in clause 7.

Clause 11.—We have slightly expanded clause (b) of sub-clause (2) in order to enable the requisite provision to be made for controlling the movements of sugar used within a factory and liable to duty under sub-clause (*f*) of clause 3. The change made in clause (c) is advisable in order to cover importations as well as purchase to be made. The change made in sub-clause (3) of this clause is prompted by the same considerations as that made in clause 7.

We desire to record our conviction that Government should, in return for the tax which they are now levying upon the sugar industry, afford all possible help to the industry by the organisation of enquiries of research, both agricultural (evolution of better types of cane, etc.) and industrial (disposal of by-products, etc.).

3. The Bill was published in the *Gazette of India*, dated the 17th March 1934.

4. We think that the Bill has not been so altered as to require republication, and we recommend that it be passed as now amended.

MINUTES OF DISSENT.

We are unable to agree that the rate of duty on sugar generally should be reduced from Rs. 1-5-0 per cwt. to Re. 1 per cwt. We consider that if the import duty is maintained at such a level always the excise duty that the difference represents the amount of the protective duty recommended by the Tariff Board, then the industry cannot claim that it is not receiving that measure of protection. To demand more than this is to imply that the measure of protection recommended by the Tariff Board is not sufficient. No evidence in support of this was produced before the Select Committee.

On the more general point that, quite apart from any question of whether the promised measure of protection would be maintained or not, the imposition of an excise duty at the rate of Rs. 1-5-0 per cwt. would check the proper and reasonable development of the industry, no evidence in the way of figures was produced before the Committee, nor were the figures on which the Government had based its calculations effectively challenged. We feel therefore that the case for the Government proposal has in no way been shaken and that a reduction of the duty to Re. 1 per cwt. is a purely arbitrary proposal, based on no careful examination of what the industry can stand.

Apart from the above considerations which induce us to support an excise of Re 1-5-0 on its merits we must point out that a reduction to Rupee 1 would entail a loss of about Rs. 34 lakhs in 1934-35 or 38 lakhs on a full year's working at the estimated rate of Indian production for 1934-35. As the Indian production increases the loss will of course increase. Such a change would therefore disturb the whole financial plan on which the budget was framed, with its proposal for a transfer of half the jute export duty to Bengal and other provinces.

As regards the recommendation in the main report at clause 1, we consider that Government should be under an obligation not to do anything without the approval of the Legislature to vary that declared policy of maintaining the difference between the import and excise duties at the level recommended by the Tariff Board. If the excise duty were to be reduced to Rupee 1 then the difference would be in excess of this level even in present conditions when the selling price of Java sugar justifies an additional margin of 8 annas. We consider that Government should be free to reduce this difference to that recommended by the Tariff Board without bringing the excise legislation under review.

I was opposed to the proposal of fixing the excise duty at rupee one for the factories and two annas for the *Khandsari* made and carried by the non-official members in the Select Committee. I dare say, however, I would not have cared to write this note of dissent, if the Government for the sake of creating a spirit of compromise, would have stooped down a little and agreed to the proposal. Personally speaking I did not believe in the principle of imposing an excise duty on an infant industry as the sugar industry is at the present moment. The Assembly, having agreed to the principle, I think at this stage instead of Re. 1-5-0 per cwt half the amount of the proposed duty would have been quite sufficient and proper at least for the years up to 1938. My reasons are as follows.

In order to explain my point clearly, I want to take a few extract from the Sugar Industry Act, 1932. It begins "Whereas it is expedient in pursuance of the policy of discriminating protection of industries in British India, with due regard to the well being of the community, to provide for the fostering and development of the sugar industry for a period ending with the 31st day of March, 1946, by predetermining the extent of protection to be conferred up to 31st day of March, 1938, and by making provision for the determination of the extent of the protection for the remainder of the period." May I ask the Honourable the Finance Member if by bringing in the excise duty Bill he is acting in consonance with the spirit and letter of the Sugar Protection Act. The clause No. 4 of the Protection Act says "If the Governor General in Council is satisfied after such enquiry as he thinks fit, that sugar not manufactured in India is being imported into British India at such a price as is likely to render insufficient the benefits intended to be conferred upon the sugar industries by the duties imposed by section 2, he may, by notification in the *Gazette of India*, increase such duty to such an extent as he thinks fit.

From the above, it is quite clear that at the time of bringing in the protection Bill, the Government were not only anxious to foster and develop the sugar industry in India but also to give powers to the Governor General to increase the import duty on sugar if he found that foreign made sugar was selling in India "at a price as is likely to render insufficient the benefits intended to be conferred upon the sugar industries, etc."

It is hard even to guess what has happened during this short period of 1½ years which has radically changed the attitude of the Government towards the industry. The Honourable the Finance Member's chief reason for imposing the excise duty is to counter balance the surcharge on the import duty which he now seeks to merge into the import duty. Let me examine the argument.

Import duty on sugar was being levied ever since 1894. It was at first 5 per cent, in 1916 increased to 10 per cent, in 1921 to 25 per cent and in 1925, the *ad valorem* was converted into specific duty at Rs 4-8-0 per cwt. which was raised to Rs. 6 per cwt in February 1930. This import duty was a revenue measure, and in 1932 when one rupee and four annas was added to it for protection purposes, both the import duty and surcharge were already there as revenue measure. By the imposition of such a heavy excise duty, the Government are virtually taking away the protection of Rs. 1-4-0 per cwt so generously granted by them in 1932. I would ask the Honourable the Finance Member how this fact stands in contrast with the professions of the Government as expressed in the Protection Act. It were these upon professions and the policy laid down accordingly which created a deep impression on the public mind and which led to the establishment of unequally large number of sugar factories from which the protection is now practically being withdrawn and most of them will be left to struggle and help themselves in the best way they can.

BHAI PARMANAND.

It is a pity the Government did not see their way to alter the plan of taxing the production of sugar instead of taxing the profits of sugar factories. I would have supported a sugar factories profit Bill but I cannot support the policy of putting the proposed tax on an important article of food for the millions of poor people in India. This is not the way to encourage the sugar industry in this country.

C. S. RANGA IYER.

I am of opinion that the number of workers, viz., twenty under the definition of "Factory" is too high. I think the number should be reduced to ten as *Khandsari* concerns may have men working on the drying of sugar in spaces outside the definition of "Factory or within the precincts of which" and have less than twenty actually working in the Factory.

I also am of opinion that the rate of Excise for *Khandsari* sugar should be the same as for Factory sugar.

I do not quite see the necessity for sub-clause (*f*) of clause 21 of the Bill as the Governor General in Council will only require to use a Local Government as his agent, and I understand that power for that purpose is already in existence.

G. MORGAN.

I am not satisfied that the case as presented by the sugar industry in the Select Committee justifies a reduction in the excise duty from Rs. 1-5-0 to Rupee 1. The figures which were given in support of this claim were conflicting and inadequate. Unfortunately the consideration of this question is intimately bound up with the general financial proposals of the Finance Member, which affect the solvency of one Province and involve the structure of India's credit. On the information available to the Committee, it required a strong case to justify the radical modification of the Government's financial plan involved in the reduction of the duty to the level suggested by my colleagues, even allowing for the inclusion of *Khandsari* sugar at a lower rate, the result of which is entirely problematical.

On the other hand, there is some force in the apprehension that the immediate imposition of the Rs. 1-5-0 duty may involve hardship to some of the factories which have recently started. Rapid and uncontrolled production has in fact been encouraged under the shelter of the combined protective and revenue tariff; and Government cannot entirely escape the consequences of its own policy. I therefore suggest that the excise duty of Rs. 1-5-0 be imposed only as from August 1st, 1934. This will give a breathing space to the newer factories, and will give Government adequate time in which to perfect their own administrative arrangements and to consult the interests concerned before framing their rules under the Act.

2. I do not imply the slightest criticism of my colleagues when I suggest that it would have been preferable if the sugar industry had presented its case for a reduction in the excise duty through witnesses, whom the Committee could have examined before arriving at its independent conclusions.

It was, of course, a great advantage to have among our colleagues those who have direct experience of the matter which was under consideration;

but the Report would have carried greater weight if it had been based upon an exhaustive examination of evidence presented to it by expert witnesses.

F. E. JAMES.

Though I have affixed my signature to the Majority Report wherein the Excise Duty has been reduced from Rs. 1-5-0 to Re. 1, I am inclined to the alternate suggestion of keeping the duty at Rs. 1-5-0 but bringing the operation of the excise duty from August 1st. This in my opinion will be fair to all interests concerned.

I also suggest that section 36 of the Tariff Act should not be put into operation with regard to contracts made before the presentation of the current Budget.

R. P. BAGLA.

EXPLANATORY NOTE.

We have suggested the reduction of excise duty from Rs. 1-5-0 to Re. 1 per cwt. on two grounds.

1. Taking the price of Java Sugar and the price of Indian Sugar we are convinced that owing to internal competition there is no direct parity in selling prices between the two. It is admitted that in some centres at any rate Indian Sugar is sold at rates lower than those of Java Sugar. We have tried to compare the price level and also to work out on the basis of Tariff Board calculations the fair selling price of Indian Sugar. It has unfortunately not been possible to get an agreement on the facts with regard to these points, but we feel convinced that an excise duty of Re. 1 will more correctly represent the duty which the industry can pay, having regard to the declared intent on the Government to give an effective protection of Rs. 7-12-0 per cwt.

We were told in Committee that if after the imposition of an excise duty of Rs. 1-5-0 the industry finds itself in a less protected state than contemplated by the Tariff Board, i.e., does not get the effective protection of Rs. 7-12-0 per cwt, it might apply for a fresh enquiry by the Tariff Board. In our opinion this is inverting the process. The industry has made out a case for protection and the Tariff Board has made its recommendations. It is maintained by the Government that after payment of the excise duty of Re. 1-5-0 per cwt. the industry will have an effective protection of Rupees 7-12-0 per cwt. The Select Committee therefore is bound to see whether these facts are correct and it would be unfair to the industry to levy the excise duty irrespective of the extent of protection afforded to it and then ask it to await the decision of an enquiry by the Tariff Board. Having given the most careful consideration to all these facts we have come to the conclusion that an excise duty of more than Re. 1 per cwt. will be adverse to the interests of the industry and materially affect the measure of protection which according to the Government it ought to have at present.

2. The Finance Member estimated that he will get a crore and 47 lakhs by the imposition of this excise duty at Rs. 1-5-0 per cwt. We consider this an under-cut rate. Owing to the growth of the new factories and large quantities of sugar bound to be manufactured in the current year we estimate that at least 750,000 tons of sugar will be produced as against the Government estimate of 540,000 tons. Moreover, as the Government estimate did not include the Khandsari sugar which amounts to nearly 250,000 tons and of which at least 10 per cent is produced by the factories. The total amount of revenue at Rs. 1-5-0 per cwt. would come to Rs. 2 crores, 36 lakhs and 25 thousand.

It is a taxation measure it is the duty of the Legislature to see that no more revenue is granted than is asked for by the Government. We find that even on the basis of Re. 1 per cwt. the Government would get at least a crore and 47 lakhs that they have budgeted for. This is another reason why we have accepted the reduced rate of excise duty.

It has been suggested in the Select Committee that as other sources of revenue may not come up to expectations the Government is bound to get all it can out of sugar and that even if the yield from the excise duty went up much above one crore and 47 lakhs it was legitimate on the part of the Government to press for its proposal of Rs. 1-5-0 per cwt. We must confess we are unable to accept this contention. Taxation proposals have strictly to be interpreted and no Government is entitled to get more than it has asked for under that proposal. If it could be proved that by lowering the

rate of duty the budget provision can be kept in fact the proposal must meet with approval. There is only one relevant consideration which may affect our decision. The increase in the internal production of sugar has an obvious bearing on the imports of sugar. But the Finance Member has estimated that this year's imports would be only 110,000 tons as against the import of over 330 000 tons during last year. There is no possibility of the estimated figure of the imports being reduced owing to increased internal production particularly in view of the fact that due to the imposition of the excise duty, competitive conditions will be lessened and that as estimated by the Sugar Technologist the consumption of sugar will also be larger.

Palmyra Sugar.

In the Select Committee it was agreed that if the Government after investigations were convinced that a duty on palmyra sugar was justified they would ask the approval of the Legislature to the levying of that duty by means of a resolution. The Select Committee agreed to this proposal of the Government. We want to make this position clear in view of the ambiguous language of the report which says "We desire to record our view that before the Governor General in Council fixes a rate of excise duty on palmyra sugar an opportunity should be given to the Legislature to express its view upon the proposals of the Government."

NOTE.

In addition to the Note which I signed with my other colleagues, I would like to add the following note :—

I am strongly of opinion that the Bill should come into force from 1st August 1934, instead of 1st April 1934, as is recommended by the majority. It is an acknowledged fact that sugar factories in North Bihar have suffered heavily on account of earthquake and it is desirable that some concession should be given to them.

The Honourable the Finance Member himself took the same view in his Budget speech. If my suggestion is not accepted by the majority, I would still like to emphasise that on account of special circumstances existing in Bihar the sugar factories in North Bihar should be exempted from the operation of this Act till 1st August, 1934.

L.A. BILL No. 24 OF 1934.

[AS AMENDED BY THE SELECT COMMITTEE.]

[Words printed in italics indicate the amendments suggested by the Committee.]

A Bill to provide for the imposition and collection of an excise duty on sugar.

WHEREAS it is expedient to impose an excise duty on sugar produced in factories and to provide for the collection thereof; It is hereby enacted as follows :—

Short title and extent.

1. (*1*) This Act may be called the Sugar (Excise Duty) Act, 1934.

(*2*) It extends to the whole of British India, including British Baluchistan and the Santhal Parganas.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(a) "factory" means any premises wherein, or within the precincts of which, twenty or more workers are working or were working on any day in the preceding twelve months, and in any part of which any manufacturing process connected with the production of sugar is being carried on or is ordinarily carried on with the aid of power;

(b) "owner" includes any person expressly or impliedly authorised by the owner of a factory to be his agent in respect of such factory;

(c) "sugar" means any form of sugar containing more than ninety per cent of sucrose;

(d) "khandsari sugar" means sugar in the manufacture of which neither a centrifugal nor a vacuum evaporator is employed; and

(e) "palmyra sugar" means sugar manufactured from jaggery obtained by boiling the juice of the palmyra palm.

Imposition of duty on sugar.

3. (1) A duty of excise . . . shall be levied on all sugar produced in any factory in British India and either issued out of such factory on or after the 1st day of April, 1934, or used within such factory on or after the said date in the manufacture of any commodity other than sugar, and shall be payable by the owner of the factory.

(2) The duty payable under sub-section (1) shall be at the following rates, namely:—

(i) on khandsari sugar at the rate of ten annas per cwt.;

(ii) on all other sugar except palmyra sugar at the rate of one rupee per cwt.;

(iii) on palmyra sugar at such rate, if any, as may be fixed in this behalf by the Governor General in Council after such enquiry as he may think fit.

Recovery of duty with penalty.

4. (1) If any duty payable under section 3 is not paid within the time fixed by rules made in that behalf under this Act, it shall be deemed to be an arrear, and the authority to which such duty is payable may, in lieu thereof, recover any sum not exceeding double the amount of duty unpaid which such authority may in its discretion think it reasonable to require.

(2) An arrear of duty, or any sum recoverable in lieu thereof under this section, shall be recoverable as an arrear of land revenue and shall be recoverable in addition to, and not in substitution for, any other penalty incurred under this Act.

Issue of sugar from factory

5. No person shall cause any sugar cut . . . . . of a factory, except in accordance with the provisions of rules made in that behalf under this Act, or, until such rules are made, in accordance with the general or special orders of the Local Government.

Power of Governor General in Council to impose customs duty on sugar

6. (1) The Governor General in Council may, by notification in the *Gazette of India*, impose on sugar brought into British India from the territory of any State in India, not being territory which has been declared under section 5 of the Indian Tariff Act, 1894, to be foreign territory for the purposes of that section, a duty of customs equivalent to the excise duty imposed by this Act on sugar produced in British India. VIII of 1894

(2) The Governor General in Council may, by notification in the *Gazette of India*, declare that the provisions of the Land Customs Act, 1924, shall apply to the levy of the duty of customs imposed under this section and on such declaration that Act shall apply as if the expression "foreign territory" in that Act included territory forming part of a State in India. XIX of 1924

Penalty for issue of sugar from factory in contravention of section 5.

7. Whoever contravenes the provisions of section 5 shall be punishable with . . . fine which may extend to two thousand rupees . . .

Penalty for evasion of duty or failure to supply information.

8. Whoever evades or attempts to evade the payment of any duty payable by him under this Act, or fails to supply any information which he is required by any rule made under this Act to supply, or knowingly supplies false information, shall be punishable with imprisonment which may extend to six months, or with fine which may extend to two thousand rupees, or with both.

Power of Courts to order forfeiture of sugar.

9. Any Court trying an offence under this Act may order that any sugar, together with the packages or coverings thereof, in respect of which the Court is satisfied that an offence under this Act has been committed, shall be forfeited to His Majesty.

Application of the provisions of Act VIII of 1878 to the duty on sugar

VIII of 1878

10. The Governor General in Council may, by notification in the *Gazette of India*, declare that any of the provisions of the Sea Customs Act, 1878, relating to the levy of and exemption from customs duties, drawback of duty, warehousing, offences and penalties, confiscation, and procedure relating to offences and appeals shall, with such modifications and alterations as he may consider necessary or desirable to adapt them to the circumstances, be applicable in regard to like matters in respect of the duty on sugar imposed by section 3

Power of Governor-General in Council to make rules.

11. (1) The Governor General in Council may, by notification in the *Gazette of India*, make rules to carry into effect the purposes and objects of this Act.

(2) In particular, and without prejudice to the generality of the foregoing power, such rules may—

(a) provide for the assessment and collection of the duty and the authorities by whom functions under this Act are to be discharged, the issue of notices requiring payment, the manner in which the duty shall be payable, and the recovery of arrears;

(b) regulate the issue of sugar out of or the use of sugar in the manufacture of commodities within any factory and provide for the appointment of officers of Government to supervise within any factory such issue or use;

(c) impose on the owners of factories, and on persons engaged in the sale of sugar, the duty of furnishing information, keeping records and making returns and prescribe the nature of such information and the form of such records and returns the particulars to be contained therein, and the manner in which they shall be verified;

(d) provide for the detention of sugar for the purpose of exacting the duty, the confiscation otherwise than under section 9 of sugar in respect of which breaches of the Act or rules have been committed, and the disposal of sugar so detained or confiscated;

(e) authorise and regulate the inspection or search of any place or conveyance used for the manufacture, storage or carriage of sugar; and

(f) authorise and regulate the composition of offences against or liabilities incurred under the Act and rules.

(3) In making any rule under this section the Governor General in Council may provide that a breach of the rule shall, where no other penalty is provided by the Act, be punishable with fine . . . not exceeding two thousand rupees . . .

(4) The Governor General in Council may delegate all or any of his powers under this section to a Local Government.

MR. RAFI,
Secretary to the Government of India.

Acts of the Indian Legislature assented to by the Governor General

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislature received the assent of the Governor General on the 29th March 1934, and is hereby promulgated for general information :—

ACT No. IX OF 1934.

An Act to fix the duty on salt manufactured in, or imported by land into, certain parts of British India, to vary certain duties leviable under the Indian Tariff Act, 1894, to fix maximum rates of postage under the Indian Post Office Act, 1898, to fix rates of income-tax and super-tax, further to amend the Indian Paper Currency Act, 1923, and to vary the excise duty on silver leviable under the Silver (Excise Duty) Act, 1930.

WHEREAS it is expedient to fix the duty on salt manufactured in, or imported by land into, certain parts of British India, to vary certain duties leviable under the Indian Tariff Act, 1894, to fix maximum rates of postage under the Indian Post Office Act, 1898, to fix rates of income-tax and super-tax, further to amend the Indian Paper Currency Act, 1923, and to vary the excise duty on silver leviable under the Silver (Excise Duty) Act, 1930 ; It is hereby enacted as follows :— VIII of 1894. VI of 1898. X of 1923. XVIII of 1930.

Short title and extent.

1. (*1*) This Act may be called the Indian Finance Act, 1934.

(*2*) It extends to the whole of British India, including British Baluchistan and the Sonthal Parganas.

Fixation of salt duty.

2. PRIVATE SECRETARY'S OFFICE.

NOTIFICATION.

PRINCE OF WALES' ROYAL INDIAN MILITARY COLLEGE, DEHRA DUN.

No. I.—(1) In connexion with the admission of candidates to the Prince of Wales' Royal Indian Military College Dehra Dun, the following information is published for the use of intending candidates.

The College provides a public school education on English lines for Indian and Anglo-Indian youths who desire subsequently to enter the Indian Military Academy, Dehra Dun, or the Royal Air Force College, Cranwell, England, with a view to obtaining Commission in the Indian Army. It is intended for those who wish to make the Army their profession in life. The course of study at the College will, however, be such that, should a boy fail in the Army and Air Force Entrance Examination, he will be in as favourable a position for entry to a university as if he had been educated on an ordinary school.

2(2) Candidates will be selected from unmarried Indian and Anglo-Indian boys of—

(a) Provinces of British India,

(b) Indian States.

Nominations will be made by His Excellency the Commander-in-Chief on the recommendation of the Local Government or Administration or the Political Officer as the case may be.

(3) Candidates must have attained the age of eleven years and be under twelve years on the 1st August 1934.

(4) Candidates should attach to their applications a medical certificate from the Officer Commanding a British or Indian Station Hospital or a Civil Surgeon to the effect that they are physically fit in all respects in accordance with Appendix A to this notification.

(5) The fees will be Rs. 1,500 for each school year and are liable to enhancement hereafter, if circumstances require. These fees will include tuition, messing, school servants, washing and mending and medical attendance of the ordinary kind, and, as initial provision, one suit of the uniform to be worn by students while at the College.

In addition to the fees referred to above, the parent or guardian of a cadet will be required to deposit with the College authorities, on his entering the College, the sum of Rs. 50 which will be returned when the cadet finally leaves the College provided that all dues have been paid.

In the event of it becoming necessary for cadets to be admitted into a civil hospital, all charges incurred will be borne by the parents or guardians of the cadets.

A full term's notice is required to be given of intention to withdraw a cadet from the College. In the event of such notice not being given, the parent or guardian will be required to pay one full term's fees in lieu, unless it is considered that the circumstances in which the cadet was withdrawn are such as to call for special consideration.

Parents or guardians of candidates who are sons of Indian Officers of good service are informed that owing to the present financial stringency no reduction of fees will be granted for some years to come.

(6) Entry to the College will not be open to candidates who are already married.

(7) Parents or guardians of candidates are required to attach to the applications a declaration (in duplicate) in the following form :—

"I, _____, father / guardian of _____, a candidate for admission to the Prince of Wales' Royal Indian Military College, Dehra Dun, declare that it is my desire that my son / ward should make the Army his profession in life.

"I, _____, father / guardian of _____, a candidate for admission to the Prince of Wales' Royal Indian Military College, Dehra Dun, having made myself acquainted with the fees payable at that College, and subsequently, at the Indian Military Academy, Dehra Dun (viz., Rs. 2,400 for a course of three years), and at the Royal Air Force College, Cranwell, England (which are, for the present, laid down in paragraph 53-A of the 'Provisional Regulations respecting admissions of Indian gentlemen to the Royal Military Academy, Woolwich, the Royal Military College, Sandhurst, and the Royal Air Force College, Cranwell' as inserted by amendment No 7 of October 1931), am able and willing to pay the prescribed fees and meet the incidental expenses.

I also understand that in the event of my son / ward not adopting the Indian Army as his profession for reasons within his control or mine, I shall be required to pay the full cost which Government may have incurred on his education at the said College

"I, _____, father / guardian of _____, a candidate for admission to the Prince of Wales' Royal Indian Military College, Dehra Dun, hereby declare that my son / ward is unmarried and that he will remain a bachelor whilst at the College and until he has completed, subsequently, a course at the Indian Military Academy, Dehra Dun, or the Royal Air Force College, Cranwell, England."

Signature of parent or guardian _____

(8) One general mess will be maintained. All students will be required to mess together. Special care will be taken that no food is served in the mess which could in any way offend the religious susceptibilities of any student.

(9) All applications should be submitted to the Private Secretary to His Excellency the Governor of Madras, Madras Governor's Camp, not later than the 15th May 1934 in the form below. No applications received after the 15th May 1934 will be considered.

FORM OF APPLICATION.

(To be sent in duplicate.)

1 Name in full. (*To be typewritten or hand printed.*)

2 Date of birth. (*This must be definitely stated and supported by documentary evidence.*)

3 Name, occupation and address of father or guardian.

4 Caste or tribe.

5 Permanent address in India.

6 Brief resume of military service rendered by candidate's father and near relatives and statement of his father's financial position. (Required only in the case of the sons of Indian Officers.)

7 Medical report.

Place _____

Date _____

Signature of Candidate.

(10) Candidates are informed that no travelling allowance is admissible in the event of their being summoned to Madras or Ootacamund, as the case may be, for the purpose of interviewing His Excellency the Governor.

(11) Detailed information regarding the aim and scope of the course of training and the rules to be observed by parents and guardians of cadets nominated to join the College are contained in the pamphlet entitled "Regulations for the Prince of Wales' Royal Indian Military College, Dehra Dun."

Copies of the above Regulations and of the Provisional Regulations respecting admission of Indian gentlemen to the Royal Military Academy, Woolwich, the Royal Military College, Sandhurst, and the Royal Air Force Cadet College, Cranwell, mentioned in paragraph 7 above, can be had from the Manager, Central Publication Branch, 8, Hastings Street, Calcutta, price annas 2 and 6 per copy, respectively.

APPENDIX A.

Information respecting the medical examination of candidates for admission to the Prince of Wales' Royal Indian Military College, Dehra Dun.

1 The medical examination of candidates for admission to the Prince of Wales' Royal Indian Military College, Dehra Dun, should invariably be made by—

(a) the Officer Commanding a British or Indian Station Hospital, or failing (a),

(b) a Civil Surgeon.

2. A standard for height and chest measurements and physical development cannot be laid down, but the candidate should not be below the average for his age and race.

3. The standard of the minimum of acuteness of vision with which a candidate will be considered fit is—

Better eye.

Distant vision V = 6/6.
Near vision reads 0·6.

Worse eye.

Distant vision not below 6/60.
After correction with glasses not below 6/19.
Near vision reads 2·6.

Snellen's types should be used.

Each eye must have a full field of vision as tested by hand movements.

Squint or any morbid condition of the eyes or on the lid of either eye liable to the risk of aggravation or recurrence will cause the rejection of the candidate.

Each eye will be examined separately. The candidate will be required to read the tests at ordinary daylight.

Inability to distinguish the principal colours will not be regarded as a cause for rejection, but the fact will be noted in the proceedings and the candidate will be informed.

No relaxation of the standard of vision will be allowed.

4 The following additional points will then be observed :—

(a) That his hearing is good.

(b) That his speech is without impediment.

(c) That his teeth are in good order. He must have nine (9) sound teeth in the upper jaw functionally opposed to nine (9) sound teeth in the lower jaw. Two of these teeth in each jaw must be molars. Well filled teeth will be considered as sound.

(d) That his chest is well formed and that his lungs and heart are sound.

(e) That he is not ruptured.

(f) That he does not suffer in a far degree of varicocele or varicose veins. A candidate who has been successfully operated on will be accepted.

(g) That his limbs are well formed and developed.

(h) That there is free and perfect motion of all their joints.

(i) That his feet and toes are well formed.

(k) That he does not suffer from any inveterate skin disease.

(l) That he has no congenital malformation or defect.

(m) That he does not bear traces of previous acute or chronic disease pointing to an impaired constitution.

(n) That the candidate's age is as near as possible correctly stated.

A. D. CROMBIE,
Private Secretary to His Excellency the Governor.

Madras Governor's Camp,
21st March 1934.

PUBLIC DEPARTMENT.
(Military.)

NOTIFICATION.

Fort St. George, February 2, 1934
[G O. No 107, Public (Military)].

No. 2.—The revised scheme for the organization and distribution of Indian Garrison and Duty Companies to be formed on mobilization sanctioned by the Government of India in their Army Department letter to the Adjutant-General in India No. E. 24172 1-A G. 1, dated the 27th November 1933, is detailed in the Appendices I and II to this order.

APPENDIX I.

Indian Garrison Companies up to a maximum of 32 will be raised, as and when the necessity arises, by order of the Government of India, for employment under His Excellency the Commander-in-Chief—

Companies will be distributed as under,—

(a) Allotted to Commands, etc.—					
Northern Command	..	..	..	..	9
Southern Command	..	..	..	..	4
Eastern Command	..	..	..	..	2
Western Command	..	..	..	..	2
Burma District	..	..	..	..	1
					18
(b) Reserve to be raised and allotted later, if required.					14
			Total	..	32

(c) The role of these garrison companies is to take over routine duties, and so relieve units for the Field Army and Covering Troops in the six Administrative Border garrison towns and stations of India and Burma.

The actual number of companies to be formed will depend on the situation, orders to mobilize each company being communicated by Army Headquarters to the Command or District concerned.

Each Garrison Company will be numbered and bear the title of the Regiment, whose Training Battalion is responsible for raising it, preceded by the words "Garrison Company", e.g., No. 1 Garrison Company, 3rd Punjab Regiment, etc.

It is not intended that a Training Battalion shall raise more than one Garrison Company at a time.

2 Indian Duty Companies at the scale of one per Training Battalion, Indian Infantry, will also be raised under the orders of His Excellency the Commander-in-Chief, on mobilization. These units will form an integral part of Training Battalions and will be referred to on all occasions as the "Duty Company, Regiment."

The role of these Duty Companies is to perform routine duties in a training battalion, such as are normally performed in peace by duty men attached from Active Battalions. Their formation in war will thus effect the relief of regular personnel for more active employment.

3. The terms and conditions of service under which the personnel of Indian Garrison and Duty Companies will be employed are shown in Appendix II. Subsidiary instructions may be issued, as occasion demands, under the orders of His Excellency the Commander-in-Chief.

4. The establishments of an Indian Garrison Company and an Indian Duty Company are laid down in War Establishments, India, the latter under the establishment of a Training Battalion, Indian Infantry.

5. Special orders regarding the incidence of expenditure will be issued to all concerned when any Indian Garrison or Duty Companies are formed.

APPENDIX II.

1. *Recruiting.*—For purposes of recruiting, filling and maintaining up to establishment, Indian Garrison Companies will be affiliated to Indian Infantry Training Battalions as shown in the accompanying statement.

2. *Registration in Peace time.*—Officers Commanding Training Battalions will in peace time maintain registers, containing particulars of ex-Indian officers and ex-soldiers who are eligible and willing to serve in either Garrison or Duty Companies, separate registers being maintained for each company. No payment will be made on registration and no retaining fee will be admissible.

Special forms for use on registration (I. A. F. F.-842) and for calling up men on mobilization (I. A. F. F.-841-A) have been introduced and will be supplied on indent to registration officers.

3. *Procedure on Mobilization.*—(a) On general mobilization the Officer Commanding the Training Battalion will immediately call up all men registered for employment with the Duty Company of his Training Battalion from the date on which they join, they will become part of the Training Battalion and take over, at the discretion of the Commandant, routine duties normally performed by duty men attached from Active Battalions.

(b) On receipt at definite orders to do so, the Officer Commanding Training Battalions will also call up the men registered for the Garrison Company affiliated to his Training Battalion, and will be responsible for training them to the extent required to fit them for their duties. When, in the opinion of the local General Officer Commanding-in-Chief, a Garrison Company is fit for the purpose, it may be ordered to proceed to the station allotted to it for employment.

The garrison company will continue to be based on the parent Training Battalion for pay accounting and maintenance of records. For matters other than those normally carried out through the Officer Commanding parent depot, the Officer Commanding the Garrison Company will assume responsibility once the company has left the Training Battalion, until its return thereto.

4. *Eligibility.*—All ex-Indian officers and ex-soldiers, including ex-reservists, whether discharged or pensioned, will be eligible for re-employment on re-enrolment in Indian Garrison or Duty Companies, provided that they bear a good character and are medically fit for service in India or Burma. *Officers and men except ex-reservists and pensioners, who are medically fit for service in the Field will not be accepted, as this might affect detrimentally recruiting for the fighting services.* When registering names for these companies preference will be given to pensioners and men of any arm of the service who have completed their reserve service.

5 *Terms of service.*—(a) *Ex-Indian officers* will be re-employed in the permanent rank held by them on retirement. They will, however, be employed, with due consideration to their rank and seniority, in the duties for which they are considered suitable by the Officer Commanding Training Battalion to which they are affiliated and will receive the pay and allowances of the appointment held (within the ranks and numbers authorized in war establishments for Indian Garrison or Duty Companies, respectively) as received by the incumbents of similar appointments in permanent units.*

Ex Indian non-commissioned officers and men will be re-employed in the rank considered most appropriate to their previous rank, and to their qualifications at the time of re-employment.

(b) Service will be for the period of the war (or emergency) and twelve months thereafter from date of re-employment or re-enrolment, provided that their services are so long required.

(c) Enrolment and attestation will be on Indian Army Form K 1162. Attestation will be carried out immediately on enrolment.

(d) Promotion in, and to Indian commissioned and non-commissioned rank may be made as required to complete establishment.

(e) Garrison companies will not be employed on field service, except for purely routine tasks in the six Administrative Border garrison towns and stations of India and Burma.

6. *Class Composition.*—As far as possible the class composition of the Garrison and Duty Companies will correspond to that of the Active Battalions of the regiment to which they are affiliated or belong. The proportion of classes in companies is left to the discretion of the Training Battalion Commander.

7. *Pay and allowances.*—(a) The Officer Commanding the Garrison Company will be entitled to pay as admissible to an officer regimentally employed.

(b) Whilst actually employed, Indian officers and other ranks of Indian Garrison and Duty Companies will be entitled to emoluments as follows:—

(i) Pay of rank at Indian Infantry rates;
(ii) *Plus* pension already earned;
(iii) *Plus* good service, good conduct or proficiency pay—(a) During service in the rank of sepoy, good conduct or proficiency pay at the rate to which enrolled immediately prior to discharge.

(b) On promotion to non-commissioned rank, good service pay or the good conduct pay to which the soldier's character and service in the active list viewed as that of a sepoy, would entitle him, whichever is more favourable.

* NOTE.—A departure may only be made from the ranks authorized for particular appointments in the War Establishments of an Indian Battalion on Duty Company, so long as pay remains unaffected, e.g., a Subadar may be re-employed as a Platoon Commander with the pay of a Jemadar since the pay appointments of Platoon Commanders in the company that carry with them the rank of subadar are already filled by more senior ex-subadars.

Service rendered in Garrison Companies when actually called out for service will count as qualifying service for increase of either good conduct or good service pay whichever increase may be most favourable to the individual concerned.

(c) Service with Garrison and Duty Companies will count as qualifying service for pension in cases where a pension has not already been earned, but in no case will such service be permitted to count towards any increased rate of pension where pension has already been earned.

(d) The following company allowances will be admissible :—

(i) An initial grant of Rs. 30 to cover cost of purchase of books and stationery.

(ii) A monthly allowance of Rs. 30. These allowances will be drawn on the following conditions —

(a) The initial allowance when the company is started.

(b) Half the monthly allowance when 50, and the full allowance when 100 men have been enrolled in the company.

8. *Rations* —Free rations while employed as admissible to the Indian Army, vide scales of rations and supplies issued by the Indian Army Service Corps.

9. *Passages*.—Free passages by rail, road, river and sea, from their place of residence to the unit and thence to their homes on demobilisation.

10. *Furlough and leave*.—Casual leave only will be admissible during the first year's service in Garrison and Duty Companies, after which two months' furlough may be granted biennially at the discretion of the Officer Commanding Company or Battalion respectively.

On demobilisation, one months' leave on full duty pay will be granted.

11. *Followers* —Will be engaged as class II followers at the lowest rates of pay at which they are obtainable locally (Army Instruction, India, No. 247 of 1922).

12. *Equipment and clothing*.—No clothing allowance will be admissible. Clothing and equipment will be issued on the scales laid down in Field Service Manual and will remain the property of Government.

13. *Typewriter*.—A typewriter will be supplied by the Deputy Controller of Stationery, Calcutta, on demand by the Commandant of the Garrison Company.

14. *Periodical Verification* —Verification of all men registered for service with Indian garrison and duty companies will be carried out biennially by local Governments and Administrations and Indian States concerned, except Patiala, Kashmir and Gwalior, on Indian Army Form F. 1023, which will be supplied to them by Officers Commanding Training Battalions on 1st April every second year The first verification in accordance with these orders will be carried out in 1935. In the case of men who reside in the Indian States of Patiala, Kashmir and Gwalior, a copy of Indian Army Form F.1022, together with a stamped and addressed envelope for reply, will be posted by the Officers Commanding Training Battalions concerned, to each man registered, for completion and return Patiala or Gwalior overprinted stamps will be affixed on envelopes for reply, sent to men resident in these two Indian States, *vide* Army Department letter No. E. 33065-1. [G.O No. 730, Revenue].

No. 95.—In exercise of the power conferred by section 1 of the Madras Irrigation Cess Act, 1865 (Madras Act VII of 1865), the Governor in Council is hereby pleased to promulgate the following rules for the levy of water-cess for the irrigation of crops in the Kovur taluk, Nellore district, with water from the Vavveru channel and its branches :

RULES FOR THE LEVY OF WATER-CESS FOR THE IRRIGATION OF CROPS IN THE KOVUR TALUK, NELLORE DISTRICT, WITH WATER FROM THE VAVVERU CHANNEL AND ITS BRANCHES.

1. For the purposes of these rules—

(a) Irrigation is said to be regular when the crops are irrigated under and in accordance with the terms of a permit in force issued by the Tahsildar of Kovur taluk, in consultation with the Executive Engineer, Nellore. All other irrigation is irregular.

(b) A second crop is a crop grown on land on which a first irrigated crop not being a dufasal crop has already been grown in the same fasli.

(c) A dufasal crop is a crop which normally remains on the ground for more than six months, such as sugarcane, betel, turmeric and elephant yam.

Explanation.—Coconut and other plantations of trees which are usually irrigated for more than six months are dufasal crops.

(d) A third crop is a crop grown on land on which either two irrigated crops or an irrigated dufasal crop has already been grown in the same fasli.

II. When water is supplied from the Vavvery channel or any of its branches for the regular irrigation of crops on dry lands, water-cess shall be levied at the following rates and collected according to the kanbagh of the district :—

(i) For a first irrigated crop not being a dufasal crop, Rs. 6-4-0 per acre ;

(ii) for a second or third irrigated crop not being a dufasal crop Rs. 3-2-0 per acre ; and

(iii) for an irrigated dufasal crop, Rs. 9-6-0 per acre :

Provided that when the water cannot be used for irrigation without raising it by baling or by means of a mechanical contrivance, a deduction of one-fourth of the said rates shall be made.

III. For the irregular irrigation of crops with water from the Vavvery channel or any of its branches, water-cess shall be levied in accordance with the rules contained in the Revenue Department Notification No. 138, dated 8th May 1933, published at pages 779-780 of Part I of the *Fort St. George Gazette*, dated 23rd May 1933, as altered or amended from time to time.

IV. A permit issued by the Tahsildar of Kovur taluk shall remain in force until it is cancelled by him by notification in the District Gazette. The Tahsildar shall not cancel a permit without consulting the Executive Engineer and obtaining the previous approval of the Collector of the district thereto, and such consultation and previous approval shall be expressed in the notification.

V. Notwithstanding anything contained in the foregoing rules, the Government reserve the right with or without reasons given, to discontinue either temporarily or permanently the supply of water to any land, to alter the source of supply of water to any land and to modify the method of charging for water and the rates at their discretion.

Fort St. George, March 13, 1934
(G.O. No. 521, Revenue).

No. 96.—

In exercise of the power conferred by section 1 of the Madras Irrigation Cess Act, 1865 (Madras Act VII of 1865), as amended by Madras Acts V of 1900 and II of 1918, the Governor in Council is hereby pleased to prescribe the following rules with effect from 1st July 1934 for the levy of water-cess for the irrigation of crops in the Musiri taluk of the Trichinopoly district with water from the Sriramasamudram canal :—

Rules for the levy of water-cess for the irrigation of crops in the Musiri taluk of the Trichinopoly district with water from the Sriramasamudram Canal

I. For the purpose of these rules—

(a) Irrigation is said to be regular when the crops are irrigated—

(i) in case the land is ryotwari wet land, from the source assigned to the land and in accordance with the conditions under which it is registered as wet in the Government registers, or

(ii) under and in accordance with the terms of a permit in force issued by the Executive Engineer, or

(iii) in case the land is of the description referred to in clause (d) of rule II, from the source assigned to the land and in accordance with the conditions under which it is recorded or registered as wet.

All other irrigation of land is irregular.

(b) A second crop is a crop, grown on land on which a first irrigated crop not being a dufasal crop has already been grown in the same fasli.

(c) A third crop is a crop grown on land on which either two irrigated crops or an irrigated dufasal crop has already been grown in the same fasli.

(d) A dry crop (such as greengram and pulses) which is sown before, and in not separately irrigated after, the harvest of an irrigated crop grown on the same land shall not be deemed to be an irrigated crop.

(e) A dufasal crop is a crop which normally remains on the ground for more than six months, such as sugarcane, betel and turmeric.

Explanation I.—Coconut and other plantations of trees which are usually irrigated for more than six months are dufasal crops. Coconut trees more than three years old shall not be regarded as 'irrigated crops' unless they are irrigated otherwise than by percolation. Where isolated coconut trees are grown on bunds of fields or elsewhere every tree shall be charged as occupying one cent.

Explanation II.—Any variety of paddy which is harvested only once will be considered to be a single crop irrespective of the period for which water is required for it.

II. When water from the Sriramasamudram Canal is supplied for regular irrigation of crops, water-cess shall be levied at the following rates :—

(a) For the irrigation of crops on dry lands in ryotwari or proprietary villages including minor inam dry lands—

(i) for a first irrigated crop not being a dufasal crop, Rs. 15 per acre,

(ii) for a second irrigated crop not being a dufasal crop, Rs. 7-8-0 per acre.

(iii) for an irrigated dufasal crop, Rs. 22-8-0 per acre, and

(iv) for a third irrigated crop, Rs. 3-12-0 per acre,

(b) For the irrigation of crops on lands in proprietary villages recorded as wet in a record-of-rights prepared by the Government or on minor inam wet lands in ryotwari or proprietary villages—

(i) for a first irrigated crop not being a dufasal crop, Rs. 7-8-0 per acre.

(ii) for a second irrigated crop not being a dufasal crop, Rs. 7-8-0 per acre.

(iii) for an irrigated dufasal crop, Rs. 15 per acre, and

(iv) for a third irrigated crop, Rs. 3-12-0 per acre

III. When the water cannot be used for irrigation without raising it by baling or by means of a mechanical contrivance, a deduction of Rs. 3 per acre for an irrigated dufasal crop, of Rs. 2 per acre for a first irrigated crop not being a dufasal crop, and of Re. 1 per acre for a second irrigated crop not being a dufasal crop or for a third irrigated crop, shall be made from the cess chargeable under these rules

IV. The lands specified in a permit issued by the Executive Engineer may be irrigated until the permit is withdrawn or cancelled by the Executive Engineer by notification in the District Gazette, and if a sluice or pipe is shown in the permit, it shall be irrigated only from that sluice or pipe. No applications for such permits are necessary.

V. Notwithstanding anything contained in the foregoing rules, the Government reserve the right, with or without reasons given, to discontinue either temporarily or permanently, the supply of water to any land, to alter the source of supply of water to any land and to modify the method of charging for water and the rates at their discretion.

VI. For the irregular irrigation of crops with water from the Sriramasamudram Canal, water-cess shall be levied in accordance with the rules contained in Revenue Department Notification No. 138, dated the 8th May 1933, published at pages 779-780 of Part I of the *Fort St. George Gazette* dated the 23rd May 1933, as altered or amended from time to time.

Ms. 141.—The following notification of the Government of India is republished :—

DEPARTMENT OF COMMERCE.

TARIFF.

New Delhi, the 3rd March 1934.

No. 720-T. (1)/32.—In exercise of the powers conferred by sub-section (3B) of section 3 of the Indian Tariff Act, 1894 (VIII of 1894), the Governor General in Council is pleased to direct that the following further amendments shall with effect from 1st May 1934 be made in the Ottawa Trade Agreement Rules, 1932, namely :—

1. For rule 4 of the said Rules the following rules shall be substituted, namely :—

"4. No article shall be deemed to be the produce or manufacture of any country to which these Rules apply unless the Customs Collector is satisfied—

(i) subject to the provisions of rule 4A that the article has been consigned from such country ; and

(ii) (a) where the article is unmanufactured, that it has been grown or produced in such country, and

(b) where the article is manufactured—

(i) that it has been wholly manufactured in such country from material produced in such country , or

(ii) that it has been wholly manufactured in such country from unmanufactured materials , or

(iii) that it has been partially manufactured in such country and that the final process of manufacture has been performed in such country, and that the expenditure on material produced and labour performed in such country in the manufacture of the article is not less in the case of an article specified in the Second Schedule than one half and in the case of other articles than one quarter of the factory or works cost of the article in its finished state :

Provided that where the goods were consigned from a British Colony the material produced and labour performed in any other British Colony may be reckoned as though it were material produced or labour performed in the colony from which the goods were consigned.

Explanation.—For the purposes of sub-clause (iii) of clause (2) (b) the final process of manufacture shall not be deemed to have been performed in any country in which no process other than a process of mixing, bottling, labelling, packing into retail containers or the like has been performed, but where such process as aforesaid has been performed in the country in which the final process of manufacture has also been performed nothing herein shall render the cost of such process ineligible for inclusion in the computation of the fraction of the factory or works cost of the article in its finished state which represents expenditure on material produced and labour performed in that country.

4A. Articles of a description specified in the first column of the Third Schedule which have been consigned from the United Kingdom but are in other respects eligible under rule 4 to be deemed to be the produce or manufacture of a country specified in the corresponding colony in the second column thereof shall be deemed to be the produce or manufacture of that country notwithstanding the fact that they were not consigned therefrom."

2. In rule 5 and in sub-rule (1) of rule 6 of the said Rules for the word and figure "Rule 4" the words, figure and letter "rule 4 or rule 4 read with rule 4A as the case may be" shall be substituted.

3. In clause (h) of rule 6 of the said Rules for the words "Second Schedule" the words "Fourth Schedule" shall be substituted.

4. In the First Schedule to the said Rules—

(a) for entry 18 the following entry shall be substituted, namely:—

"18. Malaya (i.e., the Straits Settlements, the Federated Malay States and the Unfederated Malay States of Johore, Kedah, Kelantan, Perlis and Trengganu)"

(b) entries 19 and 24 shall be omitted;

(c) entries 20 to 23 shall be renumbered 19 to 22 and entries 25 to 44 shall be renumbered 23 to 42.

5. After the First Schedule to the said Rules the following Schedules shall be inserted, namely:—

"Second Schedule.

[See Rule 4 (b) (ix).]

1. Machinery and component parts thereof meaning machines or parts of machines to be worked by manual or animal labour and any machines (except such as are designed to be used exclusively in industrial processes) which require for their operation less than one quarter of one brake horse-power.

2. Carriages and carts which are not mechanically propelled and cycles (other than motor cycles) imported entire or in sections and parts and accessories thereof; excluding rubber tyres and tubes.

3. Motor cars including taxicabs and articles (other than rubber tyres and tubes) adapted for use exclusively as parts and accessories thereof.

4. Motor omnibuses, chassis of motor omnibuses, motor vans and motor lorries; and parts of mechanically propelled vehicles and accessories excluding rubber tyres and tubes.

(*G.O. No.* 461, *Development*).

No. 120.—The following draft of an amendment to the Madras Factories (Amended) Rules, 1933, published with Development Department Notification No. 246, dated the 24th August 1933, at pages 992 to 1007 of Part I of the *Fort St. George Gazette*, dated the 11th September 1933, as subsequently amended which the Governor in Council proposes to make in exercise of the powers conferred by section 37 of the Indian Factories Act, 1911 (XII of 1911), is hereby published as required by sub-section (1) of section 39 of the said Act for general information.

Notice is hereby given that the draft will be taken into consideration on or after the 10th July 1934, and that any objection or suggestion which may be received from any person with respect thereto before the date afore said will be considered by the Governor in Council. Objections and suggestions should be addressed to the Secretary to Government, Development Department, through the Commissioner of Labour.

DRAFT AMENDMENT.

For rules 82, 83 and 84 of the said rules, the following rules shall be substituted, namely —

"82. An appeal presented under section 30 of the Act, shall be in the form of a memorandum setting forth concisely the grounds of object on to the order and bearing court-fee stamp in accordance with Article 11 of Schedule II to the Court Fees Act, 1870, as amended by Madras Act V of 1922, and shall be accompanied by a copy of the order appealed against.

"83. On receipt of the memorandum of appeal the appellate authority shall if it thinks fit, or if the appellant has requested that the appeal should be heard with the aid of assessors call upon the body, if any, declared to be the body representative of the industry concerned under sub-section (3) of section 30 of the Act, to appoint an assessor within a period of fourteen days. If an assessor is nominated by such body, the appellate authority shall appoint a second assessor itself. The appellate authority shall then fix a date for the hearing of the appeal and shall give due notice of such date to the appellant and to the Inspector whose order is appealed against, and shall call upon the two assessors to appear upon such date to assist in the hearing of the appeal.

"84. An assessor appointed in accordance with the provisions of rule 83 shall receive for the hearing of the appeal, a fee to be fixed by the appellate authority subject to a maximum of Rs 50. The fee shall be paid by Government, but where assessors have been appointed at the request of the appellant and the appeal has been decided wholly or partly against him, the appellate authority may direct that the fees of the assessors shall be paid in whole or in part by the appellant."

"9. (1) Any clerical error in the registers of births or of deaths or any error in the cause of death in the registers of deaths found by the Registrar or the checking officer shall be corrected by him forthwith

Provided that no entry shall be corrected under this sub-rule more than a year after it is made except with the previous sanction of the Collector of the district.

(2) Any other error in the said registers shall be corrected under the orders of a Magistrate (not below the rank of a Magistrate of the second class) having jurisdiction over the local area. An order under this sub-rule shall not be made unless the Magistrate is satisfied, on obtaining a report from the headman or the president of the local board concerned or after making such enquiry as he may consider necessary, that the original entry is inaccurate.

(3) (a) All corrections under sub-rules (1) and (2) shall be made by drawing a line through the original entry (but not so as to render it illegible) and writing the new entry above it.

(b) Corrections made under sub-rule (1) shall be initialled and dated by the Registrar if the error is discovered by him and by both the checking officer and the Registrar if the error is discovered by the checking officer.

(c) Corrections ordered by a Magistrate under sub-rule (2) shall be initialled and dated by both the checking officer and the Registrar.

(d) If any correction made under this rule relates to the registers maintained for Europeans or European British subjects, an errata slip shall be filled in by the Registrar and forwarded to the Registrar-General of Births and Deaths through the District Magistrate."

4. For rule 10 of the said rules, the following rule shall be substituted, namely :—

"10. (1) Where any case of omission to register a birth or death is discovered by, or brought to the notice of, the Registrar or the checking officer, he shall after ascertaining on such enquiry as he may deem fit, the date and other particulars of the birth or death, as the case may be, cause the same to be registered :

Provided that no registration under this sub-rule shall be made after the expiry of one year after the birth or death.

(2) A birth or death not registered within one year after the event shall be registered under the orders of a Magistrate (not below the rank of a Magistrate of the second class) having jurisdiction over the local area. No order under this sub-rule shall be made unless the Magistrate is satisfied on obtaining a report from the village headman or president of the panchayat concerned or after making such enquiries as he may consider necessary that the birth or death took place on the date alleged and has not been registered.

(3) Every entry made in the register under sub-rule (1) or sub-rule (2) shall be initialled and dated by both the checking officer and the Registrar.

(4) If any entry made under sub-rule (1) or sub-rule (2) relates to any registers maintained for Europeans or European British subjects, an errata slip shall be filled in by the Registrar and forwarded to the Registrar-General of Births and Deaths."

(G.O. No. 656, P.H.).

No. 338.—

In exercise of the powers conferred by sub-section (1) of section 298 and clauses (c) and (p) of sub-section (2) of section 303 of the Madras District Municipalities Act, 1920 (Madras Act V of 1920), the Governor acting with Ministers is hereby pleased to make the following rules for the registration of vital statistics in municipalities published with Local Self-Government Department Notification No. 1442, dated the 1st December 1925, at pages 992-999 of Part I-A of the *Fort St. George Gazette* dated the 29th December 1925, as subsequently amended :—

AMENDMENTS

1. In the said rules and the Forms appended thereto, for the word "Chairman" wherever it occurs the words "executive authority" shall be substituted.

2. After rule 1-A of the said rules, the following rule shall be inserted, namely :—

"1-B. (1) Where any case of omission to register a birth or death is discovered by, or brought to the notice of, the Registrar or the checking officer (the executive authority or Health Officer of the municipality), he shall, after ascertaining, on such enquiry as he may deem fit, the date and other particulars of the birth or death, as the case may be, cause the same to be registered :

Provided that no registration under this sub-rule shall be made after the expiry of one year after the birth or death.

(2) A birth or death not registered within one year after the event shall be registered under the orders of a Magistrate (not below the rank of a Magistrate of the second class) having jurisdiction over the municipal area. No order under this sub-rule shall be made unless the Magistrate is satisfied on obtaining a report from the executive authority concerned or after making such enquiry as he may consider necessary that the birth or death took place on the date alleged and has not been registered.

(3) Every entry made in the register under sub-rule (1) or sub-rule (2) shall be initialled and dated by both the checking officer and the Registrar.

(4) If any entry made under sub-rule (1) or sub-rule (2) relates to any register maintained for Europeans or European British subjects, an errata slip to Form C shall be filled in by the Registrar and forwarded to the Registrar General of Births and Deaths."

3. In sub-rule (1) of rule 12 of the said rules the words and brackets "(Chairman or Health Officer of the municipality)" shall be omitted.

NOTIFICATIONS

SECTION A.

At its meetings held on the 24th and 26th March 1934, the Academic Council adopted the following Regulations and amendments to the Regulations in the Andhra University Code, 1932-35 :—

I

To section 10 of Chapter XXIII on page 148 (University Code 1932-35) add the following foot-note :—

N B.—This concession shall be extended to Andhra graduates who passed the B.A. Degree Examination of the Madras University, prior to the year 1937.

(To come into effect forthwith.)

II

In new Chapter XLII-B, adopted by the Academic Council at its meeting on 8th December 1933 (before page 435).

(i) *For* the words "M.A. and M.Sc. Degree Examinations" *substitute* the words "M.A. (Hons.) and M.Sc. (Hons.) Degree Examinations" wherever the former occur.

(ii) In Regulation 1 (i) which runs as follows :—

"That each candidate shall have passed the B.A. (Hons.) or B.Sc. (Hons.) Degree Examination respectively of the University"

add at the end the words "or of some other University accepted as equivalent thereto."

(iii) In the same Chapter, at the end *add* the following :—

M.A. and M.Sc. Degree Examinations.

2. A holder of any one of the following Degrees of this University :—

(i) B.A.

(ii) B.Sc. or B.A. in a Science subject

will be eligible for the degree of M.A. or M.Sc. on the same conditions as above, provided that he produces satisfactory evidence that he has worked for not less than two years after passing the B.A. or B.Sc. Degree Examination, under the direction of a person approved prior to the candidate's starting work by the Syndicate.

(To come into effect forthwith.)

III

Insert the following as a fresh Chapter in the University Code, 1932-35 :—

CHAPTER XLII-D.

DEGREE OF DOCTOR OF PHILOSOPHY.

1. A Master of Arts or Science (Pass or Honours) or an M.B.B.S. of this University or of any other University recognised for this purpose working in the University for a period of one year previous to his application may offer himself as a candidate for the degree of Doctor of Philosophy (Ph.D.) provided three years have elapsed from the time when he passed the examination for the Master's degree or the M.B.B.S. Degree respectively.

2. Every candidate shall state in his application the special subject within the purview of the regulations for the Master's or M.B.B.S. degree upon a knowledge of which he rests his qualification for the Doctorate and shall, with the application, transmit three copies printed or typewritten, of a thesis on some special portion of the subject so stated, embodying the result of research or shewing evidence of his own work, whether based on the discovery of new facts observed by himself, or of new relation of facts observed by others, whether constituting an exhaustive study and criticism of the published work of others or otherwise forming a valuable contribution to the literature of the subject dealt with, or touching generally to the advancement of knowledge. The applicant in submitting a thesis, shall state, generally in a preface and specifically in notes, the course from which his information is derived, the extent to which, he has availed himself of the work of others and the portions of his thesis which he claims as his original. He shall also be required to declare that the thesis submitted is not substantially the same as one which has already been submitted to any other University.

3. The candidate may also forward, with his application, three printed copies of any original contribution or contributions to the advancement of the special subject or contributions to the advancement of the special subject or subjects of which he or of any cognate subject, which may professed by him, or of any cognate subject, which may have been published by him independently, or conjointly and upon which he relies in support of his candidature. The application and the thesis should be forwarded so as to reach the Registrar between 1st June and 1st July of any year.

4. The theses mentioned in section 2 and the original contributions, if any, mentioned in section 3 shall be referred by the Syndicate to a Board of three examiners ordinarily drawn from outside India.

5. The Board shall report to the Syndicate the result of the examination of the thesis and if the Syndicate upon the report, considers the candidate worthy of the Degree of Doctor of Philosophy it shall declare that the candidate shall be awarded the degree and cause his name to be published with the subject of his thesis and the titles of his published contributions, if any, to the advancement of knowledge.

(To come into effect forthwith.)

Insert the following as a fresh chapter in the University Code, 1932-35 :—

CHAPTER XLVI A.

COURSES IN FRENCH AND GERMAN.

1. There shall be diploma course and a vacation course in French and German respectively.

Diploma Course.

2. No candidate shall be eligible for a diploma in French or German who has not undergone a prescribed course and satisfied the examiners in a qualifying examination.

3. No candidate shall be admitted to the course of instruction in French and German who has not passed the matriculation examination of the University or an examination recognised by the Syndicate as equivalent thereto.

4. The course shall consist of three terms extending over one academic year. Applications for admission must reach the Registrar not later than 15th May.

5. For the purpose of entrance to the course no previous acquaintance with the language is required and the candidates will be taught on a syllabus and text-books to be prescribed from year to year.

6. There shall be an examination held annually in the first week of July or on such dates as may be fixed by the Syndicate. Stress shall be laid on the aptitude of candidates for translation both out of and into the selected language rather than for grammar.

7. The examination shall consist of two papers, the first of three hours' and the second of two hours' duration. The first paper shall contain questions on text-books and grammar and the second paper shall contain questions on translation from the selected language into English and vice versa.

8. No candidate shall be admitted to the examination unless he has attended not less than 75 per cent of the total number of lectures and has produced a certificate from the lecturer certifying that his progress and conduct have been satisfactory. But persons who have attended two vacation courses—one junior and the other senior—may sit for the examination.

9. A candidate shall be declared to have passed the examination if he obtains not less than 40 per cent of the total marks in all the papers taken together. All other candidates shall be deemed to have failed in the examination. Successful candidates obtaining not less than 60 per cent of the marks shall be declared to have passed with distinction.

10. The fee for the course in either French or German shall be Rs. 45 for the whole course, payable at the beginning of the academic year.

11. Notwithstanding anything contained in this Chapter, it shall be competent to the Syndicate, by previous notice in the *Fort St. George Gazette*, to suspend for any year or any number of years the course and examination for the Diploma in French or German.

Vacation Course.

12. For the benefit of mufassal teachers and others desirous of gaining some knowledge of either French or German, vacation courses may be arranged by the Syndicate should there be a sufficient number of applicants joining the course. The lectures will last for about three months (April-June). The fee for the course shall be Rs. 30. There will be no University Examination at the end of the course, but a certificate of having undergone the course satisfactorily shall be given to each candidate if he satisfies a test.

Notwithstanding anything contrary to the first paragraph of the section, it shall be competent to the Syndicate to arrange for two vacation courses—one junior and other senior—and those who attend these courses and put in the prescribed attendance will be

permitted to sit for the diploma examination. The fee for the whole course will be Rs. 40 payable at the rate of Rs. 20 at the beginning of each course.

It shall be competent to the Syndicate, by previous notice, to suspend the vacation courses for any year or number of years.

(To come into effect forthwith.)

Insert in Chapter XLIII (B. Ed. Degree Examination) of the Code (1932-1935) the following revised syllabuses for (1) Theory and Practice of Education (pages 437 to 441), (3) Methods appropriate to the teaching of English, (pages 442 to 444), (4) Methods appropriate to the Teaching of (a) all subjects to young children (page 445), (b) Mathematics (page 446) and (c) History (pages 452-454) in place of those now in force on the respective pages given above:—

1. THEORY AND PRACTICE OF EDUCATION.

PART I.

A. GENERAL—

The need of a theory of education—relation of theory to practice.

The meaning of education—education as the process of adjustment between the individual and the environment—other concepts (preparation, unfoldment and formal discipline).

The aim of education—the nature of an aim—general and specific aims.

The agencies of education—the family, the social community, the church, the state and the school—the evolution and function of the school—the nature of the school environment.

Other agencies operating at the present day—libraries, museums, cinemas and broadcasting.

The function of the teacher—bi-polar and tri-polar relation. The modern views regarding the influence of the personality of the teacher—the scientific and cultural presuppositions of the teacher's work.

B. PSYCHOLOGY IN RELATION TO THE CHILD'S DEVELOPMENT—

1. HEREDITY AND ENVIRONMENT AND THE SIGNIFICANCE OF INFANCY—

Heredity as a condition of development—the inheritance of physical and mental traits.

Environment (social heredity) as the other condition as an organising and selecting agent—the possibilities of estimating the relative influences of heredity and environment.

The theory of the inheritance of acquired characters and its bearing on education.

The prolongation of human infancy and its sociological and educational significance.

2. THE PHYSIOLOGICAL BASIS OR MENTAL PROCESSES—

The constitution of the nervous system—the localisation of brain functions—the action of the nervous system.

3. THE MENTAL PROCESSES—

(a) *The Affections and Conative Processes*—

Pleasantness—unpleasantness aspects of consciousness. Definition of Instinct and Emotion.

Instincts of pugnacity, flight, curiosity, disgust, sex, self-assertion, sub-mission and appeal and constructive, acquisitive and parental instincts.

Imitation and suggestion.

Play: differences between play and work, make—believe, the play spirit in education

Distinction between instinct and habit—nature and importance of habits—principles of habit-formation.

Volition: inhibition and direction.

Primary and Secondary emotions.

Sentiment—temperament—mood.

The Unconscious: libido, repression, sublimation, complexes, etc.

The growth of group and moral consciousness.

Attention—factors involved, classification differences between adults and children, pedagogical application.

Relation of attention to interest—nature and kinds of interests—development of interests—classification of interests.

Fatigue—its causes, symptoms, effects and remedial measures.

(b) *The Cognitive Processes*—

Sense—perception and its development—Perception of quality, space and time—training in sense-perception—preperception and apperception—the doctrine of apperception.

Memory—classification and favourable conditions—reminiscence and obliviscence—difference between adults and children—economical methods of memorisation.

Learning methods—learning curves—plateau stages.

Transfer of training—the traditional view—experimental result—interference—the limits of transfer.

Imagination—factors involved—individual differences in imagery—growth of imagination—differences between adults and children—training in imagination.

Thinking and reasoning—types of thinking—steps in thinking—concrete and abstract thinking—training to think.

General intelligence—its measurement—the uses of intelligence tests—Principles of test construction.

PART II.

A. SCHOOL HYGIENE—

General conditions of healthy life and growth—characteristics of successive stages of physical development.

School hygiene—school site and buildings—lighting and ventilation—play-ground—furniture.

Common ailments of children and how to detect them—infectious diseases.

Detection and avoidance of fatigue and overpressure.

Physical training, gymnastics, drill, games and free-play.

B. SCHOOL ORGANISATION—

The school and its divisions—school departments—size of departments—co-education *vs.* separation—special classes—one teacher schools—the class as a working unit—size of classes—the staff—qualifications and adequacy, etc.—classification of pupils—time-table for different grades of schools—examinations external and internal—promotion and its different bases—school records and their proper maintenance.

C. INSTRUCTION—

(a) MATERIAL.

Criteria for selecting material of instruction.

The elements of the environment and the needs of the various stages of development as determining the curricula for infant, primary and secondary grades of education.

Theories of recapitulation—the psycho-physiological theory and the culture epoch theory.

The scope and sequence of school studies.

Co-ordination, Correlation and Concentration.

(b) GENERAL PRINCIPLES OF METHOD.

The nature and general principles of method—teaching and learning processes—logical and psychological methods—the maxims of methodological procedure—the formal steps—types of lessons—inductive, deductive, drill, review, appreciation and how-to-study lessons.

Forms of instruction suited to different ages of pupils and in different subjects—devices of teaching—exposition, illustration, questioning, etc.—the use of black-board and of other class room apparatus. Lesson plans—Modern individualist tendencies as exemplified in supervised study, the Gary system, the Project Method and the Dalton plan.

D. DISCIPLINE—

Moral instruction and training. The aim of moral training. The chief factors in moral training—(i) corporate life of the school, (ii) personal influence, and (iii) non personal influence.

The corporate life of the school. School community—mutual rights and obligations—school societies and other organized groups—school government—school laws, their character and enforcement—juvenile delinquency—rewards and punishments, their nature and kinds—pupil self-government and its forms.

Influence—government—discipline—personal influence of the teacher and "the leaders of the groups." Non personal influences of the curriculum and other school activities.

Day and Boarding schools and leisure time of pupils.

The relation of the school to other communities with kindred interests.

II ALL SUBJECTS TO YOUNG CHILDREN.

III. THE TEACHING OF ENGLISH.

I. LANGUAGE.—Thought and language, Language as analysis of experience and the product of speech; not strictly logical, evocative and symbolic. Language and speech. The word the unit of language, the sentence the unit of speech. The active and passive aspects of language study. First and second languages, the extent to which the first hinders and helps acquisition of the latter.

II. ENGLISH.—The position of English in India. The bilingual problem; English a medium (1) of instruction and (2) of expression. The practical and cultural value of English. Colloquial and literary English.

III. METHODS OF TEACHING.—(1) The translation or grammatical method aiming at a comparative study of grammatical structure, through reading, without providing occasions for the natural use of language; repetition rather than translation the most effective means for the learning of idiom; the translation method, with its appeal to reason, the adult's rather than the schoolboy's approach to the study of language.

(2) The "reform" or realistic methods: the natural, the oral, the active, and the direct methods; the direct method and its many modifications, its aims and main principles, and its psychological basis; the inhibition of the mother tongue as a shock to cross-association; the direct method right in principle, wrong in emphasis.

(3) The "compromise" method, aiming at the development of all aspects of language learning, with a view to achieving practical results; the rational use of the mother tongue as a means of explanation; adequate provision for progress in reading to the extent possible at each stage, progressive practice in speech, though not always in advance of reading; the suitable grading of written work, and the practical teaching of grammar therewith.

IV. ORAL WORK.—Its prominence in the initial stages, the vitalising force of reading throughout the course, though gradually outstripped by it.

The place and value of phonetics in all oral work to teacher and pupil. Ear training and phonetic drill. The speech sounds of English; a detailed study of their production, and comparison with Indian speech sounds.

The use of phonetic symbols and apparatus. The value of phonetic texts for teacher and pupil. An elementary study of intonation. Rhyme, rhythm, quantity and metre.

Conversation: conventional and natural; to precede reading. The importance of repetition. Subjects for conversation: objects, persons, scenes, pictures, stories, dialogues. Picture or object talks as a device for preventing the undue intervention of the mother-tongue, for promoting fluency, and for covering much ground in a short space of time. The place and value of substitution tables.

V. THE TEXT.—(a) *Oral Reading.*—The initial stages: the alphabetic, the phonic, the look and-say, the sentence, and eclectic methods. Devices for directing attention to the content of reading. Reading as its elementary aspect: pronunciation, phrasing, intonation, stress, speed.

(b) *Silent Reading.*—Its place and importance; as an aid to language acquisition. How to develop skill in rapid reading.

(c) *The Content of Reading.*—Methods of explanation: use of objects, actions, gestures, and pictures; the apperceptive principle and the mother-tongue in explanation. Realia (customs, society, institutions, etc.); how gradually to introduce.

(d) *Prose.*—(1) *The Text for Intensive Study:* The centre of instruction in intelligent reading and the study and the use of language; the extension of vocabulary; drill in word and phrase; the extent to which digression is desirable. Sentence and paragraph study. Purpose and tone in writing. Diction and the choice and use of words; style, common literary forms. Types of exercises for oral and written work at all stages of school work.

(2) *The Text for Extensive Study:* Mainly for comprehension; the chief aim the creation of interest in books by rapid silent reading developed from oral reading. Interest and vocabulary control; complexity of sentence structure no great hindrance to comprehension. Exercises in oral and written to test comprehension primarily. The formation and use of class libraries.

(e) *Poetry.*—Virtually another language: new word order and diction (including figurative usage), rhyme and rhythm, and more often than not a foreign background. Types of verse. Mood more important than meaning. Visualisation as an aid to appreciation. Annotation and paraphrase. Types of oral and written work.

(f) *Recitation.*—Of prose and verse; dramatic work.

VI. GRAMMAR.—Views regarding the function of grammar. How far grammar aids the learning of a language. The linguistic and the critical sense. Formal and functional grammar. The place of grammar in "reform" methods of language teaching.

The bias of English grammar in the past; the present tendency. The need for uniformity in grammatical terminology. The real need for the teaching of grammar evident when a written work is attempted.

The teaching of grammar largely the teaching of terminology. The most realistic method the inductive. Grammatical summaries and the framing of rules. Drill exercises. The teaching of grammar in the early and later stages. The structure of the sentence as an aid to punctuation, balance, concord, order, ellipsis, and emphasis. The function and form of words; word order. The framing of syllabuses.

VII. COMPOSITION.—Oral and written. Progress from reproduction to free composition. The text the centre of instruction. Fluency exercises. Picture and object composition; story reproduction; the descriptive essay—oral and written preparation essential. The more formal types of written work; epitome, expansion, and paraphrase. The preparation of syllabuses. Correction and valuation of written exercises.

VIII. HANDWRITING.—Cursive and print writing. The importance of blackboard demonstration. The use of copy books. Capitalisation, syllabification, indentation, the punctuation of abbreviations, underlining; the purpose and grading of transcription and dictation. Attention to handwriting and arrangement of all kinds of written work; spelling.

IX. TRANSLATION.—Mainly for purposes of explanation and as a remedial exercise to impress differences in grammatical structure. Translation as an art possible only in the highest classes in a limited extent. Systematic exercises in translation correlated with the teaching of grammar.

X. LANGUAGE TESTS.—Purpose of tests. Tests for measurement of achievement and for diagnosis of individual defects. The applicability of the new examining technique (covering the mechanical aspect of language instruction). Tests of reading—speed, pronunciation, comprehension. Tests of vocabulary and grammar. Handwriting scales. Composition scales.

XI. THE ORGANISATION OF ENGLISH TEACHING IN SCHOOLS.—Time-tables and schemes of work. Syllabuses. Notes of lessons. Pictures and class libraries. Literary and debating societies. Library reading and the use of works of reference. The running of school magazines and other forms of team work.

IV. MATHEMATICS.

I. NATURE OF MATHEMATICS—
Subject-matter and methods.
The relation of Mathematics to the applied sciences, logic and economics.
Stages in the development of Mathematics; the experimental, the intuitional, the systematic and the philosophical.
The fundamental concepts of Elementary Mathematics.

II. THE AIMS OF MATHEMATICAL EDUCATION—
Practical, disciplinary, and cultural.

III. HISTORY OF MATHEMATICS—
The value of the history of mathematics. The history of the decimal system, negative, complex and irrational numbers, the function concept and the parallel postulate.
Contribution to the pedagogy of Mathematics by eminent educationists: Pestalozzi, Froebel, Herbart and Montessori.
Modern tendencies in methods of teaching.

IV. PSYCHOLOGY OF SCHOOL MATHEMATICS—
The psychology of: drill, the equation and problem solving.

V. METHODS OF TEACHING MATHEMATICS—
The heuristic, laboratory, analytic and synthetic, inductive and deductive and genetic methods.
Logical and psychological methods of development.
Means of securing speed and accuracy.
Oral and written work.
Graphical methods and illustrations.

VI. THE MATHEMATICS CURRICULUM AND THE ORGANISATION OF SCHOOL MATHEMATICS—
Principles governing the construction of syllabuses and assignments. The logical and the psychological sequences.
The Concentric and Continuous Systems.
The primary, lower and upper secondary stages.
Specialization and the specialized course.
The teaching of arithmetic, algebra and geometry dealt with separately and in detail with regard to aim, matter and method.
Correlation of Mathematical subjects and of these with the other school subjects.
The Dalton Plan and the Project Method.
Tests and Examinations.

VII. EQUIPMENT FOR THE TEACHING OF MATHEMATICS—
Collection of data for problems.
Notes of lessons.
Vocational Mathematics with reference to local conditions.
Text-books, their place and value.
Mathematical libraries and laboratories.
The elements of statistical methods. General acquaintance with: frequency distributions, histogram and frequency polygon, measures of central tendency, measures of dispersion, standard score and co-efficient of correlation.

V. METHODS OF TEACHING HISTORY.

I. THE MEANING OF HISTORY—

What History is. What is meant by the philosophy of History.

II. THE SCOPE OF HISTORY—

Economic, social, political, and constitutional history. The economic background of history. A plea for a unified social science course. The relation of history to other subjects.

III. THE EDUCATIONAL VALUE OF HISTORY—

(i) *Content*: Comprehension of ethical and cultural ideas.

(ii) *Mental Discipline*: Cultivation of memory, imagination, reason, and judgment.

IV. THE AIMS OF TEACHING HISTORY—

(i) *General*: to make the pupils realize the progressive growth and development of civilization, to create in them the historic sense, and to inculcate a proper use of books and other sources of information.

(ii) *Special*: (1) *In the Lower Classes*—to awaken interest, kindle imagination, and foster memory. (2) *In the Higher Classes*—to stimulate the critical faculty and train the pupils in individual and community work.

V. THE SUBJECT-MATTER OF HISTORY—

(i) *Its Selection*: Local, Indian, European, and World History; Ancient, Mediæval, Modern, and Recent History.

(ii) *Its Organization*: Outlines and periods.

VI. THE METHODS OF TEACHING HISTORY—

(i) *The Early Stage*—The oral lesson—the Culture Epoch theory—chronological treatment—the biographical approach—the Great Man theory—the Narrative method—vitalizing the past by means of verbal illustrations and pictures—dramatization—drill.

(ii) *The Later Stage*.—(1) The Text-book lesson—the Continuous vs. the Concentric system—topical treatment—concrete illustrations—correlation with Civics, Geography, and Literature (epic, ballad, poetry, romance, and novel)—the Inductive method—the operation of cause and effect—the Spiral plan—special lectures—teaching History backwards. (2) *Individual Work*—learning by doing—home lessons—historical exercises—library work—collateral reading—the study of documents and other sources—the Dalton Plan—the solution of problems—the Townsend-Warner method—the "Research" method—note making—essay writing—the preparation of maps, plans, and sketches—the construction of graphs, time-lines and charts. (3) *Community Work*—Civics taught through school organizations—undertaking excursions—the execution of projects—the conduct of debates.

VII. THE EQUIPMENT OF THE HISTORY LABORATORY—

Furniture, library, and museum—maps, pictures, and charts—the camera, magic lantern, stereoscopes, stereoscope, epidiascope, cinema, gramophone, and radio.

VIII. THE ORGANIZATION OF TEACHING WORK IN HISTORY—

The basis and construction of a syllabus—teaching notes and notes of lessons—supervision by the senior assistant—New Type and Standardized Tests—the examination system—Teachers' Conferences for the consideration of syllabuses and methods.

The vernacular as the medium of instruction.

Government Secondary Training School,
Ongole, 16th April 1934.

GOVERNMENT INDIAN MEDICAL SCHOOL, MADRAS.

1. SELECTION OF CANDIDATES FOR ADMISSION TO THE L.I.M. CLASS IN THE GOVERNMENT INDIAN MEDICAL SCHOOL, KILPAUK, MADRAS—JULY 1934.

It is hereby notified for the information of candidates that applications for admission to the L.I.M. Class should be submitted to the Principal, Government Indian Medical School, Kilpauk, Madras, so as to reach him on or before the 15th June 1934.

2. The school works in three sections, viz., Ayurveda, Siddha and Unani.

3. The standard of preliminary general qualification required will be such as to ensure an adequate knowledge of English as well as (a) Sanskrit or Telugu, (b) Tamil or (c) Urdu for admission to the Ayurveda, Siddha and Unani sections, respectively.

(a) Candidates should have obtained completed Secondary School-Leaving Certificates considered as satisfactory by the Principal or have passed any of the examinations which have been recognised by Government as equivalent to it in article 1 of the Public Service Notification, Secondary School-Leaving Certificate holders must have obtained the Presidency average in all subjects and shown a satisfactory record in

(i) Group A—English and Elementary Mathematics

(ii) Group B—Elementary Science

Preference will be given to candidates who have studied one of the following subjects in Group C, the order of preference being Chemistry, Physics, Physiology, Practical Mathematics and Algebra and Geometry.

(b) Should a sufficient number of qualified candidates be not available in any one year, the standard of educational qualification required may be temporarily lowered by the Principal; but the candidates qualified under paragraph (a) above shall have a prior claim to admission.

(c) Applicants who, having taken English as their second language, have satisfactorily completed their course of studies at an advanced Sanskrit, Tamil or Arabic institution recognized by Government or affiliated to a recognized University will also be considered eligible for admission provided they pass an admission test in English which the school authorities will hold for the purpose. This examination will be such as to test the knowledge of the candidate in the books prescribed for English for the Secondary School-Leaving Certificate Examination of the previous school year.

Students admitted under this rule will be granted exemption in regard to the subject of Sanskrit, Tamil or Arabic prescribed for other students.

The admission test will be held in July, just before the new admissions for the first-year classes are made. Candidates who are selected for admission but fail to satisfy the above test will only be admitted as provisional students subject to their passing the language test at a second examination which will be held in December of the same year; students who fail at December test also, will have their names removed from the provisional list and they will not be permitted to continue their studies at the school.

4. Selection will be made by a Selection Committee appointed by the Government.

5. Candidates seeking admission to the school should not be below 16 years of age at the time of their admission to the school.

6. (a) Applications for admission should be made before the 15th June 1934 in the prescribed form which may be had on application to the Principal. A registration fee of Rs. 5 should be paid into a Government treasury or the Imperial Bank of India to the credit of "Government Indian Medical School, Madras—Fees" and the treasury or bank receipt should accompany the application. No application will be registered without the production of such a receipt. The registration fee will be counted towards the school fees in the case of candidates selected for admission, who will then be required to pay only the balance due to complete the

payment. The registration fee will be returned to the candidates not selected for admission, but forfeited in the case of those who are selected but do not join on or before the prescribed date. Each application must be superscribed "Application for admission to the L.I.M. class."

(b) Intimation of selection will be duly sent to all selected candidates who should then pay their fees and join the school on or before the prescribed date.

(c) Every application for admission should be accompanied by the following certificates in original without which it will not be considered :—

(1) Certificate of physical fitness from a Registered Medical Practitioner.

(2) Certificate of character and abilities in original from any responsible person who knows the candidate personally (this certificate must be based on the personal knowledge and experience of the candidate [and must have been obtained not earlier than 1st April of the year).

(3) Certificate of the standard of general education attained.

(4) S.S.L.C. Book.

7 (a) The fees payable by students will be as follows :—

Candidates who are natives of the Madras Presidency, Rs. 75 per annum—payable in advance in two instalments viz., Rs. 50 for the long term and Rs. 25 for the short term.

Other candidates, Rs. 125 per annum—payable in advance in two instalments, viz., Rs. 85 for the long term and Rs. 40 for the short term.

(b) A fee of rupee one for a term or rupees two for a whole year towards the Athletic union of the school shall be paid in advance by each student in each at the school office.

(c) The fees should in all cases be paid into a Government treasury or the Imperial Bank of India to the credit of "Government Indian Medical School, Madras—Fees" and the receipt granted by the treasury or bank filed at the school office on or before the prescribed date.

8 (a) The Government have provided ten free studentships to be awarded annually to deserving students who belong to this Presidency, preference being given to women and to students of backward communities.

(b) The Government have also instituted four scholarships of the monthly value of Rs. 20 each to be awarded annually to women students who are not in receipt of stipends from other sources. The stipendiaries will be supplied with books and instruments biennially for Rs. 100 at the cost of Government. On the completion of the course, successful candidates who were in receipt of stipends from the Government will be liable to serve the Government, if required, for a period not exceeding five years but no guarantee of such employment will be given to any candidate.

(c) Applications for admission to freeships and scholarships should be made in the prescribed form which may be had on application to the Principal. *Applications for freeships and stipends should reach the Principal not later than the 1st July of each year.* Every such application should be accompanied by the certificates and other documents mentioned in the prescribed form and if belonging to the backward or depressed class a certificate from Revenue authorities not below the rank of a Revenue Inspector stating the class or community. No application will be considered without the production of such certificates or documents.

9. At the end of each year, there will be Board examinations to test the fitness of candidates for promotion to the next higher class.

The examinations will be held each year in the month of April; candidates will not be considered qualified for promotion to the next higher class or in the case of the fourth-year candidates "for admission to the Apprentice Physician's course" unless they secure a pass at these examinations.

Every student who completes the prescribed course of study in the school successfully and passes the prescribed examinations and also completes the Apprentice Physician's course will be entitled to style himself a Licentiate in Indian Medicine and to affix the title "L.I.M." to his name.

HOSTEL.

10 There are two hostels attached to the school one for men students and the other for lady-students situated near the school under the immediate supervision of a Sub-Warden and a House-Keeper respectively. All the students who do not reside with their parents or bona fide guardians are expected to live in the hostel as far as accommodation is available and the charges will be as follows :—

(b) Electric, water and establishment charges for a month about Rs. 3.

(c) Messing charges monthly about Rs. 15.

(d) Caution money deposit Rs. 35 for the present.

NOTE.—Applications from candidates who do not fulfil the conditions prescribed and if so received after the due date will on no account be considered nor will any communication in the matter be replied to. No notice will be taken of applications defective as regards the required documents. Students who have previously been dismissed from the Medical Schools are ineligible for admission. Enquiries for particulars and application forms will not be attended to unless followed by an addressed envelope or postcard. Registration fees in the case of ineligible candidates will not be refunded.

2. RULES FOR THE A.I.M. COURSE (ASSOCIATE IN INDIAN MEDICINE).

The A.I.M. course of study is instituted with a view to provide facilities for qualified practitioners of allopathic medicine to obtain special courses of instruction in the three branches of Indian Medicine, viz., Ayurveda, Siddha and Unani.

2. The course extends over a period of two academical years commencing from July in each year.

3. The preliminary qualification for admission is the possession of a recognised qualification in allopathic medicine.

4. (a) Applications for admission should be made before the 30th June of every year in the prescribed form which may be had on application to the Principal. A registration fee of Rs. 5 should be paid into a Government treasury or the Imperial Bank of India to the credit of "Government Indian Medical School—Fees" and the treasury or bank receipt should accompany the application. No application will be registered without the production of such a receipt. The registration fee will be counted towards the school fees in the case of applicants selected for admission who will then be required to pay only the balance due to complete their payment. The registration fee will be returned to the applicants not selected for admission but forfeited in the case of those who are selected but do not join on or before the prescribed date.

(b) Intimation of selection will be duly sent to all selected applicants who should then pay their fees and join the school on or before the prescribed date.

(c) Every application for admission should also be accompanied by a certificate testifying to the standard of general and professional training received by the applicant. No application will be considered without the production of such a certificate.

FEES.

5. (a) The fees payable by students for this course will be Rs. 120 per annum payable in advance in two equal half-yearly instalments.

(b) The fees should in all cases be paid into a Government treasury or the Imperial Bank of India to the credit of the "Government Indian Medical School, Madras—Fees" and the receipt granted by the treasury or bank filed at the school office on or before the prescribed date.

(c) If a student leaves the school during a session he shall have no right to claim remission for any portion of the fees paid.

6. The course of instruction is in two parts, viz., (1) studies in main branch and (2) studies in subsidiary branches. Any one of the three branches, viz., Ayurveda, Siddha and Unani may be taken as the main branch, the remaining two constituting the subsidiary branches. The instructions in the main branch will be on the basis of original texts of that branch while instruction in the subsidiary branches will be through lectures delivered in English.

A. LECTURES.

First year.

(1) Fundamental principles of Indian Medicine (including Anatomy, Physiology, Psychology, etc.), (2) Materia Medica and Pharmacy and (3) Pathology and Diagnosis.

Second year.

(1) Medicine (including mental diseases, toxicology, etc.), (2) Surgery (including diseases of the eye, ear, nose, throat, etc.) and (3) Midwifery and diseases of women and children.

B. HOSPITAL PRACTICE.

To commence six months after the commencement of the course and to continue for the rest of the course.

C. LIBRARY STUDY.

7. At the end of the first and second-year course there will be an examination conducted by a special Board to test the fitness of the candidates for the award of the diploma of Associate of Indian Medicine. The examination in preclinical subjects will be held at the end of the first year and the examinations in clinical subjects at the end of the second year. Candidates would not be permitted to appear for the second examination without passing the first, but would be allowed to continue in the second year and complete their course. Candidates successful at the examinations will be permitted to affix the title 'A.I.M.' to their names.

2. RULES FOR THE A.I.M. COURSE (ASSOCIATE LICENTIATE IN INDIAN MEDICINE).

(Vide G.O. Ms. No. 2355, P.H., dated 26th July 1933.)

The A.I.M. course of study is instituted with a view to provide facilities for approved and qualified practitioners of Indian Medicine to obtain special courses of instruction in Western Medicine.

2. The course extends over a period of two academical years, commencing from the month of July, the standard of training in the subjects prescribed for the course is the same as that for the L.I.M. qualification in the same subjects.

3. The preliminary general qualification is the same as that prescribed for L.I.M. candidates.

4. The preliminary professional qualification is the possession of a qualification in Indian Medicine granted by or under the authority of the Government of India or any Province in India or Indian States or by any recognized University or Examining body in India, provided that no candidate will be eligible for admission to this course unless the professional qualification has been granted after undergoing course of prescribed professional study of not less than four years' duration, during the last two of which at least the candidate has received hospital practice and clinical instruction. In all cases of doubt as to whether a particular qualification does or does not fulfil the conditions for recognition, the Principal, Government Indian Medical School, should refer the matter to the Government of Madras for final decision.

In the case of applicants who do not possess any of the professional qualifications noted above but who are already employed in institutions of Indian Medicine maintained or aided by Government or local bodies, a certificate of continuous approved service of not less than four years may be considered sufficient to make an applicant eligible for being exempted from the operation of the prescribed rule in respect of preliminary professional qualification.

5. (a) Application for admission should be made before the 25th June of every year in the prescribed form which may be had on application to the Principal. A registration fee of Rs. 5 should be paid into a Government treasury or the Imperial Bank of India to the credit of the "Government Indian Medical School, Madras—Fees" and the treasury or the bank receipts should accompany the application. No application will be registered without the production of such a receipt. The registration fee will be counted towards the school fees in the case of applicants selected for admission who will then be required to pay only the balance due to complete their payment. The registration fee will be returned to the applicants not selected for admission but forfeited in the case of those who are selected but do not join on or before the prescribed date.

(b) Intimation of selection will be duly sent to all selected applicants who should then pay their fees and join the school on or before the prescribed date.

(c) Every application for admission should be accompanied by a certificate testifying to the standard of general and professional training received by the applicants. No application will be considered without the production of such a certificate.

6. (a) The fees payable by students for this course will be Rs. 120 per annum payable in advance in two equal half yearly instalments.

(b) A fee of rupee one for a term or rupees two for a whole year towards the athletic union of the school shall be paid in advance by each student in cash at the school office.

(c) The fees should in all cases be paid into a Government treasury or the Imperial Bank of India to the credit of the "Government Indian Medical School, Madras—Fees" and the receipt granted by the treasury or bank filed at the school office on or before the prescribed date.

(d) If a student leaves the school during a session he shall have no right to claim remission for any portion of the fees paid.

7. The curriculum of studies will be as under :—

FIRST YEAR.

(1) General Science (elements of physical and biological sciences).
(2) Anatomy including dissections.
(3) Physiology including elements of Psychology and Histology.
(4) Materia Medica (with reference to certain selected drugs).

SECOND YEAR.

(1) Medicine (preventive and curative) and allied subjects.
(2) Surgery and allied subjects.
(3) Obstetrics.
(4) Pathology including elements of Bacteriology.
(5) Hygiene and Public Health.
(6) Medical Jurisprudence.

Clinical instructions will commence after six months of preliminary scientific teaching are completed and will continue throughout the rest of the course.

8. At the end of the first and second year course there will be an examination conducted by the Government Board of Examiners in Indian Medicine in the subjects studied. Candidates would not be permitted to appear for the second year examination without passing the first, but would be allowed to continue in the second year and complete their course. Candidates successful at the examinations will be permitted to affix the title of A.I.M. to their names.

3. SPECIAL COURSE OF TRAINING FOR PASSED L.I.M.S OF THE SCHOOL.

Special course of training for passed L.I.M.'s of the school in the branches of Indian Medicine in which they have not specialized in their L.I.M. course is also provided. They will have to take their courses along with A.I.M. students. The fees for the course is Rs. 40 per year for each branch and is payable in advance.

4. RULES REGULATING THE COMPOUNDERS' COURSE IN INDIAN MEDICINE (AYURVEDA, SIDDHA AND UNANI).

The school provides training at the attached hospital for compounder apprentices who desire to qualify themselves as Ayurveda, Siddha and Unani compounders.

Applications for admission should be made in the prescribed form which can be had from the Principal, Government Indian Medical School, Madras, on or before 25th June 1934.

The course extends over a period of one year at the end of which there will be an examination conducted by the Government Board of Examiners in Indian Medicine to test the fitness of the candidates for the grant of certificate of qualified compounders in Indian Medicine.

No one will be admitted to this test unless he produces a certificate of having undergone training for a period of not less than one year at the pharmacy of a Government hospital or dispensary of Indian Medicine or a pharmacy maintained by a local body or any other pharmacy specially recognized for the purpose.

The syllabus for the course is as follows :—

(1) Elements of Materia Medica including a knowledge of the identification of drugs and herbs; rules for the collection, purification and preservation; weights and measures; the dosage and methods of administration of simple and compound preparations including those containing poisonous drugs; common poisons and their antidotes; the proper understanding and compounding of prescriptions; and the proper labelling and dispensing of different kinds of medicines.

(2) Preparation of all varieties of pharmaceutical preparations in common use including a knowledge of their chief ingredients, the menstruums to be used and other details; the apparatus, utensils and other materials used in a pharmacy and the general equipment of a dispensary.

(3) A knowledge of first-aid treatment; elements of sick dieting and sick nursing; maintenance of stock registers; preparation of departmental accounts and statistics; rules for the keeping and dispensing of stock medicines, poisons and other medicinal preparations.

FEES.

School fees.—The compounder apprentices are at present charged no fees for their training at the school-hospital.

Examination fees.—The fee for the qualifying examination is rupees six which should be paid into a Government treasury in the mufassal or at the Imperial Bank of India, Madras, to the credit of the Government Indian Medical School, on or before the date prescribed for the same.

The qualifying examination shall comprise an oral as well as a practical test in each of which a separate minimum of 50 per cent is to be secured for a pass in second class and 75 per cent for a pass in first class.

PROSPECTS.

The successful candidates are eligible for employment in all institutions of Indian Medicine maintained or aided by Government or local bodies.

6. SPECIAL TUITION FOR CANDIDATES PREPARING FOR HIGH PROFICIENCY TEST IN INDIAN MEDICINE.

Regular classes for the training of students for the H.P.I.M. test will be opened this year in July 1934 subject to sanction that a sufficient number apply for the same. Applications should reach the Principal on or before 25th June 1934.

The following are the rules for admission to the H.P.I.M. test.

1. An examination for the diploma of higher proficiency in Ayurveda, Siddha and Unani branches of Indian Medicine will be conducted annually by the Government Board of Examiners in Indian Medicine.

2. Any L.I.M. of the School of Indian Medicine may be admitted to this examination on the production of a certificate showing that (a) he, having passed the L.I.M. examination has been engaged for at least three years continuously in the practice of the medical profession; or

(b) he, after qualifying for his L.I.M. diploma has passed at least two years continuously in hospital practice at a recognised hospital.

3. Candidates shall be examined in one of the following branches:—

A. Ayurveda,
B. Siddha and
C. Unani.

The examinations in each branch will include both theoretical and practical (including clinical and oral) tests besides the submission of a thesis embodying the results of the candidate's own critical study or independent research. The theoretical and practical examinations will be such as to test that the candidate possesses satisfactory knowledge of the prescribed books and syllabus of advanced study including a working knowledge of modern clinical methods and therapeutical practices of proven utility.

The question papers for the Ayurvedic, Siddha and Unani branches will be set in Sanskrit, Tamil and Arabic respectively while the answers may be in Sanskrit or any of the vernaculars of South India in regard to Ayurvedic papers, in Tamil for Siddha papers and in Arabic or Urdu for Unani papers.

The thesis should be in English; and where quotations from original works in other languages are cited, an English version of the same should be appended to the quotations.

The thesis should embody the result of research or show evidence of original work, whether based on the discovery of new facts observed by himself or of new relations of facts observed by others, whether constituting an exhaustive study and criticism of the contributions of others or otherwise forming a valuable contribution to existing medical literature or tending generally to the advancement of medical knowledge. The candidate should indicate generally in a preface to his Thesis and specially in notes, the sources from which his information is taken the extent to which he has availed himself of the work of others and the portions of his thesis which he claims as original; he should further state whether his investigation has been conducted independently under advice or in co operation with others and in what respects his work appears to him to tend to the advancement of medical knowledge.

The thesis submitted whether manuscript, typescript or printed, will not be returned to the candidate. The Government will have the right to publish the Thesis of a successful candidate if and when they wish to do so, every candidate will also be at liberty to publish his own thesis whenever he wishes to do so.

Fees

(a) The fees payable by students for this course will be Rs. 120 per annum payable in advance in two equal half-yearly instalments.

(b) The fees should in all cases be paid into a Government Treasury or the Imperial Bank of India to the credit of the "Government Indian Medical School, Madras—Fees" and the receipt granted by the treasury or bank filed at the school office on or before the prescribed date.

(c) If a student leaves the school during a session he shall have no right to claim remission for any portion of the fees paid.

STATISTICS—CROP REPORT—COTTON—1933-34—FIFTH OR FINAL REPORT.

The average of the area under cotton in the Madras Presidency during the five years ending 1931-32 represents 9 per cent of the total area under cotton in India.

2. The area under cotton in the Madras Presidency in 1933-34 is estimated at 2,205,800 acres against 1,970,100 acres for the corresponding period of last year and 2,044,500 acres according to the February forecast of the current year. The present estimate for the Presidency represents an increase of 6·6 per cent over the finally recorded area of 1,970,250 acres in 1932-33. Last year's estimate exceeded the actuals by 5,850 acres or 0·3 per cent.

3. Picking of cotton is in progress and may be finished by the end of this month.

4. A normal yield is expected in East Godavari, West Godavari, Salem, Coimbatore, Tanjore and Madura. A yield below normal is expected in the other districts. In Guntur, the crop is affected with leaf curl disease.

The seasonal factor for the Presidency works out to 95 per cent of the average for irrigated cotton and 92 per cent for unirrigated cotton, the final figures according to the season and crop report of last year being 98 per cent and 90 per cent respectively. On these basis, the yield works out to 441,600 bales of 400 lb. lint as against 459,670 bales in the previous year, an increase of 7·9 per cent, and against an average yield of 527,100 bales. It is, however, too early to estimate the yield with accuracy as much will depend on future weather conditions and their effect on the second crop and on the amount of damage done by insect pests.

6. The estimated area and yield under the several varieties are given below :—

(Area in hundreds of acres, yield in hundred of bales of 400 lb. lint.)

(3) Figures of carry over of crop and arrivals and deparches are not available.

7. The whole sale price of cotton Rs. per imperial maund of 82⅔ lb. as reported from important markets towards the close of March 1934 was about Rs. 17-2-0 for Cocanadas, Rs. 18-3-6 for red Northerns, Rs. 20-3-0 for white Northerns, Rs. 16-5-0 for Westerns, Rs. 24-2-0 for Cambodia, Rs. 23-14-0 for Karungani, Rs. 19-11-0 for Nadam and Rs. 32-10-0 for Tinnevellies. When compared with the prices reported in February 1934, the prices are higher in the case of all varieties except Cocanadas and Westerns which show a fall of one per cent and two per cent respectively. The price is higher by 2½ per cent in the case of white Northerns and by 4 to 11 per cent in the case of the other varieties.

8. Figures by districts are given in Statement No. I. Figures of area by varieties in the Central districts and the South are given in Statement II.

CROP—FORECAST—GINGELLY—1933-34—FOURTH OR FINAL REPORT.

The average of the areas under gingelly in the Madras Presidency during the five years ending 1931-32 represents 12·3 per cent of the total area under gingelly in India.

2. The area sown with gingelly up to the 25th March 1934 is estimated at 868 000 acres. When compared with the area of 990,500 acres estimated for the corresponding period of last year, it reveals an increase of 5·2 per cent. This year's estimate also reveals an increase of 1·3 per cent over the finally recorded area of 857,319 acres last year. Last year's estimate fell short of the actual area by 3·5 per cent.

3. 240,500 acres have been reported as sown since the previous forecast report was issued in January, as against 171,000 acres during the same period last year. These late sowings were mainly on wet lands in the Circars, South Arcot and the South where gingelly was raised as a second crop after paddy.

4. As compared with the actual area sown last year, there has been a decrease in area except in the Circars, Kurnool, South Arcot, Trichinopoly, Tanjore, Ramnad and Tinnevelly.

5. The yield has been below normal except in Vizagapatam, Kistna, Kurnool, Cuddapah, Ramnad, Tinnevelly and South Kanara where it has been normal or slightly above normal. The condition of the late sown crop is generally fair.

The seasonal factor for the Presidency works out to 92 per cent of the average as against 100 per cent according to the season and crop report of last year. On this basis the yield is estimated at 10 ,000 tons as against 112 230 tons in the previous year and an average yield of 107,570 tons.

6. Figures by districts are given below:—

TENDER FOR REPAIRS TO THE RIGHT FLOOD BANK OF THE KISTNA RIVER.

Tenders will be received by the Executive Engineer, Kistna Western Division, at his office at Bezwada up to 4 p.m. on Monday, the 7th May 1934, for the following works :—

(1) Repairs to the right flood bank of the Kistna river from 36/0 to 44/0 for 1934-35.

(2) Repairs to the right flood bank of the Kistna river from 44/0 to 52/3 for 1934-35.

(3) Repairs to the right flood bank of the Kistna river from 18/0 to 26/0 for 1934-35.

2. Tenders must be submitted in sealed covers, and should be addressed to the Executive Engineer, Kistna Western Division, the name of the tenderer and the name of the work being noted on the cover. A separate tender should be submitted for each of the abovementioned works

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm, it shall be signed with the co partnership name by a member of the firm, who shall also sign his own name, and the name and address of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorized officer who shall produce with his tender, satisfactory evidence of his authorization. Such tendering corporation may be required, before the contract is executed, to furnish evidence of its corporate existence.

3. Each tenderer must pay, as earnest money a sum of Rs. 100 (rupees hundred only) for each of the above works into the branch of the Imperial Bank of India or works into the Government treasury or sub-treasury within the jurisdiction of the Executive Engineer concerned, to the credit of revenue deposits on behalf of the Executive Engineer of the Kistna Western Division and enclose with his tender the chalan endorsed accordingly. This earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from the date of tender, whichever is earlier. This refund will be authorized by the Executive Engineer by suitable endorsement on the chalan. The earnest money will not be received in cash or currency notes by the Public Works Department officers, save in exceptional cases, where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date, on the back of all the currency notes given by him whatever their denominations may be.

The earnest money will be returned in the case of the successful tenderer, and will not carry any interest. It will be dealt with as provided in the tender

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender, sign an agreement in the departmental K 2 form for the due fulfilment of contract. Failure to enter into the required agreement shall entail forfeiture of the earnest money.

5 To give to prospective tenderers an idea about the nature and volume of work to be done and to enable them to quote suitable rates a schedule of approximate quantities is furnished. It shall however be definitely understood that the Government does not accept any responsibility for the correctness of the schedule and that it is liable to alterations by omissions, deductions or additions. The several items of work noted in the schedule are to be executed as per the Madras Detailed Standard Specifications or supplemental specifications for which rates are given against each The tenderer should carefully study the drawings, specifications and all the documents relating to the work to execute which the tender is called for. These can be seen at any time between 11 a.m. and 5 p.m. on office days in the office of the Executive Engineer, Kistna Western Division, Bezwada

6 The tenderer's particular attention is drawn to the conditions and to the directions to parties tendering, detailed on the K 2 agreement form and also to the sections and clauses in the Standard Preliminary Specification, of the Madras Detailed Standard Specification dealing with (a) Materials and workmanship—Section B, clauses 20 to 27—and (b) included in the contract rates—Section E and clauses 33 to 41 and 43.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other sources defined shall be used on the work. In every case the materials must comply with the relevant standard specification Samples of materials as called for in the standard specifications, or in this tender notice, or as required by the Executive Engineer, Kistna Western Division in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer, Kistna Western Division.

The Government will not however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8. The rate tendered should be for finished work in situ inclusive of all incidental charges connected with its execution and should be quoted in rupees, annas and in pies if three pies. The rates should be written in words and figures and the units in words. The tender should be written legibly and free from erasures overwritings or conversions of figures. Corrections where unavoidable should be made by crossing out, initialing dating and rewriting.

9. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump sum amounts for items not called for shall not be included in the tender. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

10. The materials that will be supplied by Government and the places and rates at which they will be supplied, are noted at the end of the schedule accompanying the tender form. Tenderers must accept the materials at these rates and places specified, and shall quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials, the charge to the contractor will remain as originally entered in the written contract. No cartage or incidental charges will be borne by Government in connexion with the supply.

11. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorizing others to receive payment on contractor's behalf.

12. If further necessary information is required, the tenderer will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

13. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

14. No extra payment will be made for any baling of water that may be required during the execution of the work. The same shall be included in the rates for the respective items.

15. Tenderers may tender for one or more of the above-mentioned works. When a tenderer desires to tender for more than one item, the tender for each of such works must be sent in a separate sealed cover together with concerned challan for the earnest money.

Mr. G. A. Bambridge.
Mr. A. A. Hoylus.
Mr. W. W. Ladden.

1. Read approved and recorded the minutes of the proceedings of the previous meeting held on Friday, the 23rd March 1934.

2. Read and recorded G.O. No. 140, Finance (Marine), dated the 6th April 1934, accepting with effect from the 6th April 1934 the resignation tendered by Mr. H. N. Colam of his seat on the Board and directing the publication in the *Fort St. George Gazette* of a notification to the effect that Lieut.-Col. R. H. Stallard, has been appointed by the Local Government to be a Trustee of the Port of Madras—*vice* Mr H N Colam, resigned.

3. Resolved to accept the tender given by Messrs. V. M. Raghavalu Nayudu & Son in their letter, dated the 22nd March 1934, for the supply of about 900 cubic feet of teak scantlings required in connexion with the work of centralization of the offices of the Engineering department at the Trust's Workshops, the value of the purchase amounting approximately to Rs. 3,500.

4. Resolved, with reference to a note by the Port Engineer, dated the 6th March 1934, reporting the deficiencies found amongst the articles of tools and plant in charge of the Engineering department, as the result of a count taken in October 1933, that the deficiencies found be written off.

5. Read and recorded, with reference to Resolution No. 384, dated the 1st December 1933, the report by the Deputy Port Conservator stating that S.S. "Ivanhoe" was beached near the root of the sand screen on the south side of the harbour at 8-30 a.m. on the 20th March 1934, and the Chairman's note thereon regarding disposal of equipment removed from the vessel.

6. Resolved to confirm the acceptance by the Chairman of the tender of Mr P. R. Dhanapal Chettiyar for the supply of articles of rations to the crew of the Trust's dredging craft during a period of one year from the 1st April 1934.

7. Resolved, with reference to Resolution No. 328, dated the 20th October 1933 and the Chairman's note, dated the 3rd April 1934, on the subject of the basis for computing measurements of round logs of timber imported at the port for the levy of harbour dues, etc., that the Trust return to the method of measurement as determined by the "quarter girth rule" with effect from the 1st April 1934 in supersession of the method prescribed in Resolution No. 329, dated the 30th September 1932.

8. Resolved with reference to Resolution No. 310, dated the 2nd March 1934, that the appointment of the Engineer and the Dredging Master of the Dredger "Madras" be offered to Mr. F. G Cooper on a pay of Rs. 600—25—750 on six months' probation without cut in pay, the conditions of service in be those applicable to new entrants to the Trust's service.

Resolved further that Mr. Cooper be requested to join duty as soon as possible and that his appointment be treated as supernumerary to the establishment from the date of his joining duty to the date of departure on leave of Mr. J. E. Burke, First Engineer and Dredging Master.

9. Resolved to approve of the Chairman's draft letter to Government applying for sanction of Government as required by section 30 of the Madras Port Trust Act to the payment on retirement to M.R.Ry Rao Bahadur S. Narayana Ayyar Avargal, lately Chief Accountant of the Trust, of a gratuity of Rs. 10,580 for which he is eligible under the rules sanctioned by Government for the grant of gratuities to "Officers and servants" of the Board.

10. Read Board's Resolution No. 196, dated the 15th July 1932, sanctioning an advance of Rs. 1,000 to Mr C. P. Alexander, A.M. INST., C.E., Executive Engineer, now designated as Port Engineer, for the purchase of a "Rover" car.

Read a note by the Chairman reporting that Mr. Alexander has since exchanged the "Rover" car for a 12 h.p. "Wolseley" and requesting sanction for the exchange.

Resolved that the exchange of the car be approved.

11. Resolved that Mr. W. Fyffe, M.I.C.E., M.I. STRUCT.
